Davis County Sheriff's Office:

Dear South Weber Resident's,

You are a key participant in helping the Davis County Sheriff's Office keep our community safe. The One Hundred Deadliest Days of Traffic Related Deaths started Memorial Weekend. Davis County Sheriff's Deputies are asking that we all slow down in our daily commutes, especially in our neighborhoods. Remember to stop for stop signs, failing to stop is a significant factor in auto-pedestrian accidents; distracted driving, failure to stay in your lane, and failure to signal are common causes of traffic accidents; and SPEED is the single most contributing factor to debilitating traumatic injuries and death in vehicle accidents. So, please slow down because each time you get behind the wheel to drive, people's lives are at risk, including your own.

GREAT JOB! Last month, a South Weber citizen's report of a suspicious person in South Weber City led to an arrest for theft and warrants with property, a vehicle, returned to the rightful owner. Please don't hesitate to call if you see or sense something suspicious.

Thank you for your continued support and efforts in keeping South Weber City safe.

Sincerely Lieutenant B. Roundy
Patrol Division

Proposed Transportation Utility Fee (TUF)

The street conditions in South Weber City are failing to meet expected service levels. With each passing year, the integrity of the City's roads decreases.

46% of the roads in South Weber City have a remaining service life of 6 years or less. Current City revenues cannot support the infrastructural demands for street maintenance.

The City is investigating the possibility of implementing a Transportation Utility Fee as a means to proactively manage this issue.

South Weber City will be holding open houses to present more information, answer questions, and receive feedback.

Open Houses will be held on:
Wednesday June 7th at 6:00 pm; and
Thursday June 15th at 6:00 pm
at the Family Activity Center.

Presentations will begin promptly at 6:00 pm in order to provide for questions.

FIRE DEPARTMENT ANNOUNCEMENT

We will be going throughout the city doing fire hydrant flow testing. At times, this testing stirs up sediment in the lines which may cause some non-hazardous discoloration in your water faucets. If discoloration occurs, simply allow your water to flow until the water clears.

We are sorry for any inconvenience and we are grateful for your willingness to help us keep our community safe.

NOTE FROM ROBINSON WASTE

PLEASE CURB YOUR CANS. Garbage cans should be placed in the street against the curb for pickup. Please do not place them on the sidewalk. When multiple cans are placed together, please allow 2 feet between the cans so the pickup arm on the garbage trucks can easily grasp your cans.
