Mayor's Message

Hello again, Good Residents of South Weber!

Hope you all enjoyed your Halloween weekend. I can't believe how quickly it turned cold on us. I went out walking the other morning and ended up jogging to stay warm—something I vowed I would never do. I hope you are all staying warm.

I am happy to report that Stan Cook, a long-time resident of South Weber City, is back at home and doing well. During that crazy windstorm, Stan had gone outside to move his truck from under a large Cottonwood tree. The tree snapped and came down on top of him and his truck. Fortunately, the truck was able to soften the blow, and amazingly, Stan survived. He was rushed to the hospital by our city's own EMTs and told by his doctor's that if he had been just 5 minutes later, he would not have survived. Way to go, South

Weber Fire Department! Stan broke nine ribs, punctured a lung, and remained in the hospital and rehab for many weeks. We are so grateful he is back home and back on his feet again.

I am also happy to report that the dog park and trail currently going in next to the Posse Grounds is nearly completed! That means that early next Spring we will be able to use them! I am so excited for all the dog owners in South Weber that have been waiting patiently for years for a dog park.

And speaking of Posse Grounds, some of you might have seen all the trees that were down after the windstorm. They completely covered the picnic/fire pit area. However, when our public works team dug down, they were happy to find that the new park bench dedicated to long-time little Buckaroo Rodeo Chair, Lisa Carter, was still in good shape. What a relief! Lisa Carter passed away a year and a half ago and we really miss her. We will put the bench back next year after some repairs and restoration to the site have taken place.

Folks, just a reminder that our county is in the "high" transmission level for the Coronavirus. Please remember to wear masks in public and keep social gatherings to 10 people or fewer. Our State is hoping to have a vaccine by the end of the year. The first wave of vaccines will be given to long-term care patients and health care workers. Hopefully the vaccines will be available for the rest of us by Spring. The Davis County Health Dept. is in the process of preparing drive-thru clinics for mass vaccinations, so that when a viable vaccine is ready, they can administer it as efficiently as possible.

Stay safe and stay warm!

-Mayor Jo Sjoblom

Council Corner

Happy Council Fall South Weber!

As the temps start to fall, our City continues to amp things up. Work is progressing on our "Parks Priority List". Design is underway for updates to Canyon Meadows Park as well as changes to the baseball field at Cherry Farms Park. We also just completed a study regarding a trail on the North side of I-84 that would connect to the existing Weber Pathways trail.

In September, we had a new group of youth sworn in as the South Weber Youth City Council (YCC). We have some exciting things in the works with them. We invite all citizens to participate in our Light South Weber With Gratitude project. We will be accepting lists of gratitude from residents on our City Social Media sites, and a box will be posted outside City Hall, starting Nov 1st. For every 'gratitude' we receive, we will add a light on our Gratitude Tree outside City Hall and we will create a link for our chain to stream throughout our City building. Our goal is to have one item of gratitude from every resident, allowing us to "Light South Weber with Gratitude". So start thinking of things you are grateful for. We can't wait to see what our awesome community can do with this!!

Stay Positive, South Weber!

Council Member Angie Petty

Winter Reminder

We would like to remind you that starting November 1, parking on streets will not be permitted. This creates a safety hazard for our snow plows as well as traveling vehicles.

On this note, we ask that you please trim your trees and bushes along the street while the weather is still warm to make it easier for snow plows to clear roads.

Be Aware!

Please remember to lock your car doors and bring all of your valuables into the house at night. This is the time of year South Weber falls victim to multiple car thefts. If your car was broken into, or if you see anything suspicious, DO NOT HESITATE to contact Davis County Sheriff's Department at 801-451-4150.

City Council Meetings

For the rest of this year and all of 2021, City Council Meetings will take place on the 2nd and 4th Tuesday of the month.

If a work session is needed, it will take place on the 3rd Tuesday of the month.

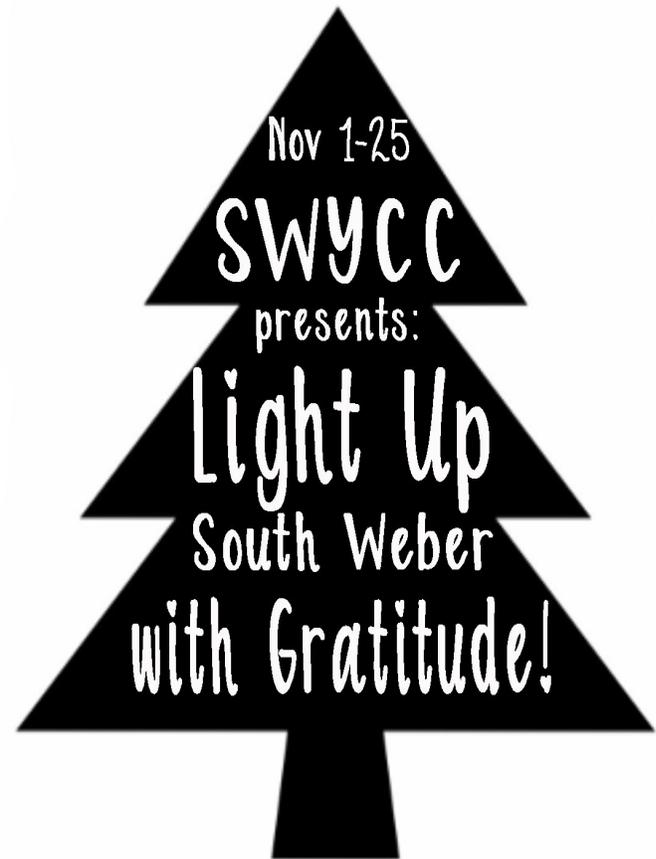

Snow Removal

As the winter season approaches, please be mindful of keeping sidewalks by your property clear of snow. The failure to remove snow on sidewalks and shoulders causes frequent slips and falls for pedestrians.

For our guidelines on snow removal, please see 7-1-2 in our City Code which states:

A: Failure to Remove Unlawful: It shall be unlawful for the owner, occupant, lessor or agent of any property, abutting on a paved sidewalk, to fail to remove or have removed from such paved sidewalk, all hail, snow or sleet thereon within a reasonable time after such snow, hail or sleet has fallen but no longer than twenty four (24 hours). The Code Enforcement Officer may grant exception on a case by case basis if there are extenuating circumstances.

B: Depositing in Gutter Unlawful: It shall be unlawful for any person removing snow from the sidewalk or driveway or other areas, to deposit or blow snow, dirt, leaves or any other material in the street, nor should any of these materials be deposited in the gutter so as to clog or prevent the free flow of water therein.

When: Throughout the month of November.

What: Share things you are grateful for.

How: For every note of gratitude, we will add a light to our "gratitude trees" at city hall.

Where: Visit our social media pages and comment your gratitude or look for our gratitude box at city hall and write them down there. The YCC will be compiling them and adding to our lights.

Who: Everyone! We hope all of you will participate!

Chris Tremea

We would like you to meet our Code Enforcer, Chris Tremea! Chris has been working for the city for just under 5 years.

His favorite part about working here is getting into conversations with the great citizens of South Weber. "Code Services will never fix the world's issues, but we will work to make it look better one property at a time."

When Chris isn't working, he enjoys his time in Idaho. "This year's a little different, but traveling the country to attend my Green Bay Packers games with my son and his friends is truly a highlight and memory builder. Can I get a Go Pack Go!?"

I am only 1 year, 3 months, and 15 days away from being an empty nester. I plan on selling my house that is a block away from the proposed Syracuse Temple, and living out of my 5th wheel enjoying retirement with my guns, Razr, and Golf Clubs.

Thank you for your hard work, Chris!

Family Activity Center

Boys Basketball registration is now open until 12/4/2020.

We are currently under restrictions that everyone needs to wear a mask while in the Family Activity Center when social distancing policies cannot be followed. Please get your temperature taken as you enter the facility and use one of the hand sanitizer dispensers when you arrive and again when you leave. Please allow 6 feet of space between each other whenever possible.

Fire Department

Carbon Monoxide is an odorless, colorless gas created when fuels burn incompletely. CO alarms should be installed in a central location outside each sleeping area and on every level of the home and in other locations where required by applicable laws, codes, or standards. For the best protection, interconnect all CO Alarms throughout the home. When one sounds, they all sound!
