## **Agenda Item Introduction**

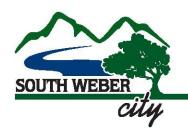

**Council Meeting Date:** 08-24-2021

Name: Lisa Smith

Agenda Item: New employee introductions

**Background:** Trevor Cahoon was hired as the new Community Services Director and public works hired Cody Wilson as a new utility worker. Staff would like to introduce these new employees to the Council.

Summary: Welcome our new employees

### **Agenda Item Introduction**

Council Meeting Date: August 24, 2020

Name: Hayley Alberts

**Agenda Item:** Recognition of 2021 Country Fair Days Committee

**Background:** We have come to a close on South Weber's favorite week of the year, Country Fair Days. This week-long event would not be possible without the dedication, hard work and energy of the Country Fair Day Committee Chairs Tani Poll, Holly Williams, and Victoria Christensen. These women have sacrificed so much of their own personal time to ensure this cherished tradition continues on. Country Fair Days this year had a fantastic turnout to all the events, from the first day with a golf and pickleball tournaments to the final evening with Fireworks in the Park. We enjoyed new events and traditions like the Pop Up Sweet Shoppe and the chalk art contest. It was very clear that all South Weberites have missed being able to be with their neighbors and friends and the opportunity to be together was not taken advantage of. No other city has a week-long event like our very own Country Fair Days and we want to express our sincere gratitude to Holly, Vicki, and Tani and all those who have volunteered to make this not only possible, but an incredibly successful year that will hold cherished memories for all those who participated.

**Summary:** The City Council would like to commend and honor the Country Fair Days Committee.

**ATTENDEES:** Rod Westbroek, Steve Westbroek, Farrell Poll, Sherry Poll, Chris Pope, Paul Sturm, Patricia Poll, Brian Poll, Douglas McGarvey, Carter Randall, Mike Bastian, Nate Harmston, Brad Brown, Sky Hazlehurst, and Steve Rice.

Mayor Sjoblom called the meeting to order and welcomed those in attendance.

1. Pledge of Allegiance: Councilman Soderquist

#### 2. Prayer: Councilwoman Petty

Mayor Sjoblom recognized City Planner Shari Phippen who worked for the city for the last six months. She thanked her for the incredible job she did working with city staff, City Council, and the Planning Commission.

- 3. Public Comment: Please respectfully follow these guidelines.
  - Individuals may speak once for 3 minutes or less: Do not remark from the audience.

• State your name & address and direct comments to the entire Council (Council will not respond).

**Paul Sturm, 2527 Deer Run Drive**, addressed his concerns that the developer of the Poll property requested a rezone from A to H-C instead of C-H. He questioned the ownership of the south-central portion of the Poll property and the designated zone. He admonished more than 30 units should have a second exit.

**Mike Bastian, 7721 S. 1750 E.,** thanked the Mayor and City Council for doing a thankless job. He commiserated those decisions made are not always popular, but necessary. He appreciated their willingness to listen and converse with people and developers. He publicly thanked Mayor Sjoblom for how she has represented our community. He also requested a sidewalk at the top of 1900 East.

#### **PRESENTATIONS:**

#### 4. Davis County Sheriff's Office Quarterly Report

Davis County Sheriff's Office (DCSO) provides law enforcement service to South Weber. Council has requested a quarterly report from the DCSO to review statistics including staffing hours within the city and relay significant events. The last presentation was April 27th.

Sergeant Chris Pope thanked those residents who complied with the recent firework ban in the city. They received only one call concerning fireworks. He reported he has been an EMS for 20 years and served South Weber City for 14 years. The weekly contract hours included 629 daytime hours and 565 nighttime hours for an average of 99.5 weekly hours. There were 701 calls, 9 arrests, 115 traffic stops, 16 citations, 32 violations, 17 radar enforcements, and 2 DUIs. 57.35% of the calls were initiated by an officer. Vehicle burglaries were down this summer with only 3 reported. He reviewed the 9 arrests which included: avoiding apprehension, possession of drug paraphernalia, revoked/suspended license, lewdness, and disorderly conduct/intoxication.

Significant events included: traffic-stop – restricted persons, vehicle burglary, suspicious-warrant fleeing, follow-up weapons offense, missing vehicle, sexual assault, trespassing-reckless burning, attempted burglary, warrant service, and family disturbance.

Sergeant Pope reported extra patrolling on Deer Run Drive and Old Maple Road have taken place. Councilwoman Petty reported graffiti on the canal and asked who is responsible for cleanup. Sergeant Pope believed it would fall to the U.S. Forest Service Area, but he will look

Page 3 of 10

into that. Councilwoman Alberts asked why the number of citations compared to events was so low. Sergeant Pope surmised the deputies were being lenient with those who live in the community, but he suggested the residents should know the laws better than visitors. Councilwoman Alberts asked who is speeding on Old Maple Farms. Sergeant Pope reported most of those violating the speed limit live in South Weber City and 20-30% are outside residents. With DCSO presence and the new speed trailer, the larger problem is running the stop sign. It was suggested painted stop lines would remind individuals to stop. City Manager David Larson reported painting of Old Maple Road will take place this year. The street will be painted with the speed limit as well as lines narrowing the street which studies have demonstrated slows traffic.

#### **ACTION ITEMS:**

#### **5.** Approval of Consent Agenda

- June 08, 2021 Minutes
- June 22, 2021 Minutes
- June 29, 2021 Minutes
- June Check Register
- May Budget to Actual

Councilman Winsor moved to approve the consent agenda as written. Councilman Halverson seconded the motion. Mayor Sjoblom called for the vote. Council Members Alberts, Halverson, Petty, Soderquist, and Winsor voted aye. The motion carried.

6. Ordinance 2021-10: Rezone South Weber Gateway, Applicant Colliers International Mayor Sjoblom reported South Weber City Council received an application from the owner and agent of Parcel 13-034-0068l, located at approximately 2301 East South Weber Drive to rezone from Agricultural to Commercial Highway and Residential R-7. She reviewed the Planning Commission voted 4-1 to recommend approving the rezone as requested at its June 10, 2021 meeting. Commissioner Johnson voted against the motion but did not state his reasons. The Commission favored limiting the R-7 zoning to the portion of the property that will actually have residential on it rather than the total project acreage. The Commission also recommended including a rescind clause so that if the project does not proceed as presented it will revert to the original zoning. As the project proceeds, the Planning Commission advised the developer to pay particular attention to the traffic impacts as it relates to Highmark Charter School.

While the projected land use map from the General Plan has this property zoned commercial highway, it also requires a development plan/agreement in place allowing a residential component subject to review and approval by the city. The developer had discussions in prior City Council meetings regarding the residential densities that would be acceptable. 62 units fits within the density allowed on the R-7 portion of the property. City Manager David Larson clarified this item is strictly a rezone request and not a review of a concept plan.

Sky Hazlehurst, Collier International, thanked the Mayor and City Council for their time and appreciated concessions made on both sides. Farrell Poll divulged realtors have contacted numerous grocers over the last several years and have been told no by all of them. He noted residential is the desirable development right now and commercial properties are dying with vacant buildings in surrounding cities. He asked the City Council to remember that he and his

Page 4 of 10

siblings have been life-long residents. He conveyed the Poll family wants a quality project. He hoped the desires of the family would be paramount in the Council's consideration.

Councilwoman Alberts asked about the acreage. It was explained Parcel 13-034-0068 at approximately 2301 E. South Weber Drive is requested to be rezoned as follows:

- a. 2.783 acres rezoned from Agricultural (A) to Commercial Highway (C-H)
- b. 8.861 acres rezoned from Agricultural (A) to Residential Multi-Family Seven (R-7) Councilwoman Alberts supported a reversion clause as was suggested by the Planning Commission. City Attorney Jayme Blakesley suggested an amendment as follows:

Section 2. Site Plan Condition. This Ordinance is specifically subject to and conditional upon the following:

a. a Site Plan for the Property must be approved by the City within 18 months of the date of this Ordinance. In the event a Site Plan is not approved or ownership of the Property is transferred to someone other than the applicants for this re-zone, the zoning designation of the property shall revert to Agricultural (A).

Sky explained why the final retail pad was in phase 3. Councilman Soderquist verified the pad would remain commercial even if demand was low. Councilman Winsor thanked the Planning Commission for their hard work. He discussed this being a transitional development between zones. He was not comfortable with the density and would be voting against the project.

Councilwoman Alberts voiced she was elected by the people and referencing the general plan survey results which were against high density, she verified she would vote "no".

Councilman Halverson opined the City Council put the owners in this situation by its unwillingness to come up with a development agreement. He averred R-7 in any other city is not high density. He added the family and developers have done their due diligence. He did not think this proposal was opposing the general plan.

Councilman Soderquist preferred retail commercial because he understood the benefit to the city, but he expressed commercial development has changed because of COVID. His main concern was safety for those coming to and from Highmark Charter School. He agreed with Councilman Halverson concerning the density and felt this is an appropriate area for the R-7 Zone. He proclaimed this proposal will be a benefit to the city and he favored approval.

Councilwoman Petty acknowledged this parcel has had much attention and emotion from all sides. She appreciated the comments from the Council and agreed R-7 is not high density. She expressed this property is an appropriate location for townhomes. She related her vote would be "yes".

Mayor Sjoblom described the history of this property. She appreciated the family and developer's willingness and patience in working with the city for the past five years.

Councilman Halverson moved to approve Ordinance 2021-10: Rezone South Weber Gateway by applicant Colliers International with the addition that a site plan for the property must be approved by the city within 18 months of the date of this ordinance. In the event a site plan is not approved, or ownership of the property is transferred to someone other than the applicants for this rezone, the zoning designation of the property

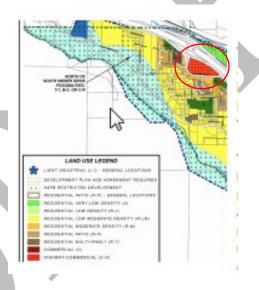

shall revert to Agricultural (A). Councilman Soderquist seconded the motion. Mayor Sjoblom called for the vote. Council Members Halverson, Petty, and Soderquist voted aye. Councilman Winsor and Councilwoman Alberts voted no. The motion carried 3 to 2.

#### 7. Ordinance 2021-11: Rezone Stephens Exit, Applicant C&N Property Holdings LLC

Mayor Sjoblom reported South Weber City Council received an application from the owner and agent of Parcel 13-018-0090, located at approximately 475 East 6650 South, to rezone from Agricultural to Commercial Highway. The Planning Commission tabled the request on May 13, 2021 which was done in anticipation of the City Council taking up the land use matrix for deliberation. At the May 25, 2021 meeting, the City Council adopted the land use matrix. At the June 10, 2021 Planning Commission meeting, the commission voted 5-0 to recommend the Council approve the rezone request. The Commission had no considerations, formal or otherwise, for the Council.

#### **General Plan Analysis**

The image below is from the Projected Land Use Map of the 2020 South Weber City General Plan. The Stephens' property is in red in the top corner of the image. As you can see from the image and from the key, the property is projected to be rezoned to Highway Commercial.

The crosshatch on the property does indicate the city has the option to consider a master planned project on the property via a development plan/agreement which would require additional information from the developer and is not being requested at this time. A development plan/agreement is not required to process a rezone: it is simply another option available.

Councilwoman Alberts asked about the process of phasing with the crosshatching. City Manager David Larson discussed the developer bringing forward a proposal for a portion or all of the property would go through the development process. A development agreement will come forward as part of a preliminary plan with the City Council making the final approval. There are two types of development agreements (legislative and administrative). City Attorney Jayme Blakesley explained approving the rezone request will allow the developer to develop any use listed in city code for the Commercial Highway Zone. David indicated the property owner is

Page 6 of 10

allowed to subdivide the property and the advantage of an administrative Development Agreement is to avoid a part and parcel development that is not cohesive.

Councilman Soderquist inquired if the zoning were changed, would it change the crosshatch. David responded no. Councilman Soderquist expressed the difficulty with not knowing what is going to be there with no concept plan. The City Council and Planning Commission have, in the past, requested rezone applications come forward with a concept so that the city has some assurance of what types of projects are intended for properties. He questioned the developer's desire to rezone without a plan.

Carter Randall, developer, explained he would like to have the zone identified so they can have confidence as they solicit businesses. If the uses fit within the permitted use, there should be no question as to their appropriateness. He would hate to plan a development project of professional services, for example, and have the city reject it. Councilwoman Alberts asked if locating potential buyers will be easier with the property being rezoned. Carter admitted it helps to have the zone in place. She referenced an earlier discussion when the developer stated it would be impossible to have a viable project with only commercial. Carter vocalized it will be riskier, but they are following the direction of the Council. Nate Harbertson emphasized the majority would require a conditional use permit, so the Council maintains control. Both developers emphasized this request follows the projected land use.

Councilman Halverson revealed the city put the developer in this situation but he was confident in the new land use matrix. Councilwoman Alberts agreed the Code Committee strove to reflect what the people wanted. Councilman Winsor echoed this request fits within the General Plan and complimented the Planning Commission. He announced he supported approval. Councilwoman Petty concurred.

Councilwoman Petty moved to approve Ordinance 2021-11: Rezone Stephens' Exit to Highway Commercial (C-H), Applicant C&N Property Holdings LLC. Councilman Winsor seconded the motion. Mayor Sjoblom called for the vote. Council Members Alberts, Halverson, Petty, Soderquist, and Winsor voted ave. The motion carried.

## 8. Resolution 21-39: Riverside Place, Phase 4 Final Plat, Site, and Improvement Plans, Applicant Scott Heagy

Mayor Sjoblom announced at the June 10, 2021 Planning Commission meeting the Commission voted 5-0 to recommend phase 4 final plat to the Council for approval. There were no conditions or suggestions made beyond the minor changes that were indicated in staff review memos. This property is located at approximately 6700 South Pebble Creek Drive (575 E 6675 S). This is the fourth phase in the subdivision and builds off previously completed phases. The project was reviewed by staff for compliance with all relevant zoning and engineering codes, standards and specifications and is fully compliant with all relevant standards except as identified by City Engineer Brandon Jones in his review letter.

Councilman Halverson questioned the type of fencing relating the problems with both chain link and vinyl. Parker McGarvey of Visionary Homes planned a vinyl fence on the east border of phase 4 next to the posse grounds. Councilman Halverson pronounced the existing chain link needs to be replaced and it was his understanding the developer was going to replace it. Councilwoman Petty asked about the ongoing trash problem in this development. David reported

the code enforcer could look into it. Parker verified they intend to be responsible developers and now that he was made aware of the trash issue, he would follow up.

Councilman Soderquist moved to approve Resolution 21-39: Riverside Place, Phase 4 Final Plat, Site, and Improvement Plans, Applicant Scott Heagy with the understanding developer must work out details of fencing with city staff. Councilman Halverson seconded the motion. Mayor Sjoblom called for the vote. Council Members Alberts, Halverson, Petty, Soderquist, and Winsor voted aye. The motion carried.

City Planner Shari Phippen commended Visionary Homes as a homebuilder that can be trusted based on personal past encounters.

#### 9. Resolution 21-40: Auditing Contract

Mayor Sjoblom reported Keddington and Christensen are the current auditors for the city and have been for the last five years. They were originally contracted by the City Council in 2016 with a four-year contract for \$10,000 per year. That contract expired in 2019 but was extended for one year to do the FY 2020 audit, which ultimately was billed at \$12,500 due to its complexity. The city has no reservations concerning the professional services provided by our current auditors. The City Council met on June 22, 2021 and discussed options for this year's audit. The Council chose to sign a one-year contract with Keddington and Christensen at the new rate of \$12,000 per year and create a request for proposals (RFP) for auditing services in January 2022 in preparation for next year's audit. The City's auditors are chosen by the City Council and report directly to the City Council. A contract based on the June 22nd discussion was presented for approval.

Councilman Halverson moved to approve Resolution 21-40: Auditing Contract to award a one-year auditing contract to Keddington & Christensen, CPAs for \$12,000 and requested proposals in 2022 for future auditing services. Councilman Winsor seconded the motion. Mayor Sjoblom called for the vote. Council Members Alberts, Halverson, Petty, Soderquist, and Winsor voted aye. The motion carried.

#### **DISCUSSION**

#### 10. Pickleball Donation Recognition

South Weber City received a significant number of donations from residents and businesses for an additional four pickleball courts at Canyon Meadows Park. The Parks Committee proposed methods of recognition including a monument, bricks, and court signs for the donors. The City Council reviewed photos of those tributes located in Kaysville. Mayor Sjoblom clarified everything will be paid for by donations. Councilman Halverson expressed this action is appropriate and has been done in other cities. Mayor Sjoblom discussed the importance of recognition and indicated it was an incentive to get donations. Councilwoman Petty was concerned how this might change the final project and wanted to make sure there is documentation of all donations and the breakdown of bronze, silver, and gold levels. Councilman Winsor reviewed the sizable loan from the city to complete this project and wanted to make sure any credit would return to the capital funds. He asked if the monument would allow for future donators. Mayor Sjoblom responded that additional bricks can be added but the monument would be only those donations prior to construction. Councilwoman Petty conveyed her desire as parks chair was for City Council approval as the monuments were not included in the phase 1

**Page 8 of 10** 

plans. Councilwoman Alberts expressed if it goes over budget, the deficit should be covered by donations. Council requested a delineation of donations and costs be attached to these minutes.

#### **REPORTS**

#### 11. New Business

**Country Fair Days Parade:** Mayor Sjoblom queried if the application for the parade was submitted. Councilwoman Alberts assured it was.

Canyon Meadows Park Budget: Councilman Winsor reminded Council that the Cherry Farms Park ball diamond bid came in over budget and wondered if those funds should be applied to landscape Canyon Meadows Park. Councilwoman Petty reported Hogan Construction was contacted to get a bid. David acknowledged changes take place as different aspects of the project come up. He affirmed the city staff is working closely with the contractor to make sure the city is getting the most for their money. Councilman Winsor charged any improvements, betterments, or amendments to the scope of the project need City Council approval. David reported at this point there have not been any changes that needs to come before the Council and the Parks Committee has been included in the process. Councilwoman Petty asked for clarification on which items the Council would like to review. David indicated the Council approved a budget and the scope of the project, but staff handles the details of the project.

**Intersection of 2700 East and South Weber Drive:** Councilman Winsor requested the Public Safety Committee review the intersection of 2700 East and South Weber Drive and find out what would happen if the city were exposed to a liability claim and report back to the City Council. Councilman Halverson voiced the committee will tackle that issue.

Family Activity Center Air Conditioning (A/C) Concerns: Councilwoman Alberts followed up on her previous probe into the A/C at the Family Activity Center. David reported he met with Recreation Director Curtis Brown. He shared the A/C is controlled by the school district and the thermostat can only be adjusted three degrees up or down which creates areas that are hotter in the FAC. Councilman Halverson suggested the school district install more thermostats so the readings would be accurate to the full facility. Mark McRae reported the existing unit is being pushed to its limit. It was also noted that this summer has been unusually hot, and this problem is not new.

**Public Comment Email:** Councilwoman Alberts inquired about the status of the public comment email not working properly. Mark reported IT fixed the problem.

Canyon Meadows Park Boundary: David reported there is a retaining wall on the north side perimeter of the park which is essentially one foot off the property line. He announced the question is where to install the fence. He presented the possibility of a single boundary line adjustment and easement for locating the fence atop the wall. Council agreed. David discussed a second boundary line issue with the historical property marker and suggested a boundary line survey. Council agreed.

Metering Gravel Trucks Entering Hwy. 89: Councilwoman Petty received a request from a citizen concerning metering the gravel trucks as they jam traffic for extended lengths of time. Councilman Soderquist will pass this along to the gravel pit companies.

**Senior Luncheons:** It was decided Curtis should restart the senior luncheons.

#### 12. Council & Staff

**Mayor Sjoblom:** announced the South Weber Utah Stake will have a float in the Days of '47 Parade in Ogden and will be in the Country Fair Days Parade as well.

Councilman Halverson: related the Public Safety Committee will meet Wednesday at 3:00 pm.

**Councilwoman Alberts:** shared the city website is anticipated to go live by the end of August. She requested the election information be placed as a banner on the city website. She thanked Trevor Cahoon for recent social media posts.

Councilman Soderquist: met with Geneva Gravel Pit who will be researching information for their rezone request. David articulated it was a constructive meeting. Councilman Soderquist reported both companies are trying their best to mitigate dust with the extreme summer months and drought concerns. Councilman Winsor asked if they shut down during high winds. Councilman Soderquist replied if the winds exceed a certain amount, they are supposed to shut down but there was no verification. Councilman Winsor noticed the various dust buckets located around the city and offered to have one placed at his home. David reported there is not a development agreement with Geneva but there is a dust agreement that requires dust monitoring. He anticipated bringing that process back to allow for additional data from Geneva.

**Councilwoman Petty:** related the Youth City Council will be helping with the Kids K Race for Country Fair Days and will be in the parade.

**Councilman Winsor:** offered the Code Committee will be presenting the Internal Accessory Dwelling Units. City staff are working on dust and lighting codes. Next priority is private roads and water wise landscaping. He added the Municipal Utilities Committee received six proposals for fiber and is currently reviewing the proposals.

**City Manager David Larson:** shared in August there will be an official employee introduction on the agenda. He announced the paramedic licensing process is underway and a letter was received from the Davis County Sheriff's Department relinquishing their license in the city. He advised there will be no City Council meeting on July 27<sup>th</sup>.

**Community Director Trevor Cahoon:** briefly introduced himself and stated he will be attending the next few City Council meetings. He expressed excitement to work with South Weber City.

**Finance Director Mark McRae:** verified the Procurement Policy requires Council review above 20% on change orders. He submitted the public works facility is eligible for American Rescue Plan Act (ARPA) funds for water and sewer.

Page 10 of 10

**ADJOURN:** Councilwoman Alberts moved to adjourn the Council Meeting at 8:57 p.m. Councilwoman Petty seconded the motion. Mayor Sjoblom called for the vote. Council Members Alberts, Halverson, Petty, Soderquist, and Winsor voted aye. The motion carried.

My comment is pretty simple please vote no. We don't want high density and R-7 is high density. We don't need the traffic nightmare it will bring. We don't want the added pressure to our aging infrastructure. We don't have the water to support our community in a drought as it is. Please vote no to the rezone.

**Date:** Thursday, July 8, 2021 2:41:56 PM

Public Comment for July 20th, 2021 Poll/Gateway property Re-zone request.

Honorable Representatives,

Regarding the Poll/Gateway zoning change from Agricultural to a mix of R-7 and Commercial: Just vote "NO."

It's that simple. The request does not align in any way with the General Plan and what the community wanted in that location. So, just vote "NO."

The General Plan is what should govern a zoning change request more than anything else. For the Poll/Gateway property the Citizens wanted Commercial Highway; ONLY. This proposal is not that. So, Just vote "NO."

The citizens do not want ANY mixed use in any way, shape, or form. This proposal has mixed use. So, just Vote "NO."

The citizens made it very clear they don't want another "Lofts" type development. To us citizens this proposal looks a lot like another "Lofts" type development. So, Just vote "NO."

To vote other than "No" on this proposed change is a blatant slap in the face to all those who participated in the General plan. So, just vote "NO."

I am NOT going to write my ideas or suggestions as to what we should do with the Poll/Gateway property as some of you and some of the planning commission suggest. The reason is, that I, along with many other citizens two years ago who wrote in, and spoke at city council about the Lofts, and the Road etc. were told: "you are only 20, and we have 7,000 citizens." Then it was only, 50, then only 100 etc. you get my drift. When we asked: "how do we make our voices heard?!" The answer was: "Inputs to the General Plan are what governs the build out of our city." So, about 600 of us participated in the general plan, and did so TWICE, just so you were sure we meant what we said the first time. And everything we put into the General plan is crystal clear that we want nothing like what is being presented to you for the Poll/Gateway property. So, Just vote "NO."

Now you say we can't sustain just commercial Highway on this property and you say you want to know our desires... well, You'd better not listen to people who just write in. You better not listen to 5, or 20, or 50, or 100, because those suggestions are not an official part of the General plan. What we need to do is an amendment to the General plan, for this and other Commercial Highway only zones that makes our citizen involvement official. That amendment would also be good time to discuss using only buildable acreage for calculations versus total acreage. But, for tonight, and for this proposal... It doesn't represent what we the people want at all. So, just vote "NO", Then we can work together to see what we do want there for our City.

Respectfully,

Terry "TG" George 7825 S. 2000 E. South Weber Utah 84405

This is on behalf of myself and my wife. If the proposed development does not fit the general plan, and the general plan is the city's guiding document (and the council is considering deviating from the GP), can you please push out an amendment to the general plan to be voted on by the citizens?

I believe if you talk to citizens on a individual basis, and they understood what including the hillside acreage meant when it comes to calculation for housing density, the increased traffic and congestion it would cause on South Weber Drive, many citizens would not be in favor of the current proposal.

Thank you for the consideration you give to your constituents in these matters.

Best,

**Subject:** City Council Meeting - Public Comments for 7/20/2021

**Date:** Monday, July 19, 2021 4:02:20 PM

To South Weber City Mayor & City Council Members,

I want to take this opportunity to make my thoughts/comments clear – The motion for recommendation to approve the rezone request on the Poll Property came with 3 conditions. Adding these 3 conditions was the only reason I voted "Yah" instead of "Nah" for recommendation for approval to the City Council during the June 10, 2021 Planning Commission Meeting.

- 1 A rescind/reverter clause was to be asked for/added by the City Council to ensure that zoning goes back to Agricultural Zoning should the Building Permit not be issued and the development not come to fruition.
- 2 The Commission requested a Traffic Flow and Interface with Highmark Charter School while school is in session to be able to clearly assess the impact the current rezone request/proposal would have in that area. During school drop off/pickup, there are cars parked along the entire length of South Weber drive, that extends from the East side entrance to the school and extends all the way to the storage facility located on the west end of this proposed development 5 days a week, Monday Friday. FYI The 2021-2022 school year for Highmark starts on August 17, 2021.
- 3 I specifically asked the Developer to look at the overall Proposed Residential density and consider lowering it, even if on just a portion of the requested Residential acreage. The Developer has come in at our Maximum allowable density of R-7 and I believe it is still too high for the area, especially on a parcel of land that in our General Plan has been identified as Commercial Highway NOT Residential for future land use. It begs the question to be asked Why is the majority of the available acreage being given to a zone that this parcel was never identified as potentially being?

I will fully admit that I was not as quick on the uptake with what Commissioner Johnson was saying early on during the Planning Commission meeting on June 10, 2021 about switching the 8.85 acres to Commercial and the 2.78 acres to be Residential. That miss was on me and I will own it! I would like to see the 20 units located in the middle of the proposed plan removed completely so that the units at the south end of the plan can be moved away from the hillside that appears to not even be in a buildable area and more open space and amenities can be added to the proposed plan that will be of benefit to our future citizens, who will live/shop here. If this is something that can be discussed/worked through with the Planning Commission during the Preliminary Plat approval stage, then so be it, but I wanted this brought up for City Council consideration at this stage, when the rezone is being requested. Once the rezone acreage is approved, we can't go back and change it!

I'm not trying to speak for Commissioner Johnson but his opposition was expressed very clearly as there is too much residential being proposed on a parcel of land that has always been identified as potential Commercial. He was opposed to identifying this property with the "Development Plan and Agreement required" as indicated on the General Plan - Projected Land Use Map. This designation makes this property an illegitimate "Mixed Use" zone,

which was highly objected to by our citizens.

Side note - Our code really needs to be looked at in order to establish a set ratio for these mixed-use/multi-zone type properties. It's an item that been discussed but no set percentages or Ratios have been established in our Code.

Did you know that Dutch Bros Coffee, which is one of the highlighted businesses on the Developers proposal, is currently under construction in Riverdale? What is the likelihood of Dutch Bro's Coffee also wanting to build a second coffee site in South weber, when we already have a coffee shop - Alpha Coffee - already approved, a Starbucks located within 1 mile to the North in Uintah, a brand-new Beans and Brews located in East Layton just off Hwy 193 and our local Maverick which also serves coffee and a variety of drinks? If additional Commercial development needs to come into our city, we can hopefully all agree that we all want it to be SUCCESSFUL!

Thank you for listening and for all that you do and for the consideration and efforts you give towards our city!

Julie Losee

I am very concerned about The rezone on the city agenda for tomorrow. I've already written about the poll rezone before I knew the stephens property rezone would be on the agenda as well. We may not have commercial banging on our door today but I believe that it will come. With the new golf course, ski resort that will be just minutes from us in Peterson there will be a need for commercial in south weber eventually. If we really want to be the Gateway to recreation you need to leave the opportunities available to be just that. If we fill up our commercial land with HDH it will be a mistake.

Also I hope that when approving the final Riverside Trailer Park you hold that developer to every promise he originally made. The more corners he cuts the less likely it will be a great destination to stop and enjoy our valley.

Thanks

As a neighbor to this parcel, I would like to respectfully suggest that a decision to rezone is postponed until the city is provided the concept plan that the city requested. At that point, the council and public can subsequently review and provide informed comments. By the wording provided in the packet (and excerpted below), a postponement in no way precludes the owner and/or developer from getting this property rezoned, it only lets them know that the city and the neighbors of the parcel expect and deserve transparency with regards to how the property will be used. The developer has offered no reason, let alone a compelling reason, that I can see in the packet as to why this rezone needs to take place without the concept plan made public. Rezoning with no concept plan makes me question what they are trying to hide, which may be nothing. I fully understand they may not be trying to hide anything; however, transparency makes a good neighbor.

Respectfully, Shawna Code

"The applicant has not provided a concept plan, which the Commission and Council have requested accompany rezone applications. While a concept is not specifically required in a rezone application, having one allows the City to have some understanding of the developer's intent in pursuing the rezone. If the Council chooses to deny the rezone, the developer does have the option of submitting a new application and going through the rezone process again."

 Meeting 7.20.21

**Date:** Tuesday, July 20, 2021 1:27:38 PM

Amy Mitchell 1923 Deer Run Drive

Hello Mayor and City Council,

Looks like another packed meeting! Thank you to all of you for all you do for our beautiful city! A couple things I would like to give public comment on for this meeting:

- 1. Rezone for "South Weber Gateway": I see that this is before the council and while I think this plan is better than any of the others, I am still concerned about all of this being built on such a small piece of property and so close to the school. I wish we could push for a much smaller density. Is there a contingency plan for the commercial, especially in phase 3, that if we don't get the other commercial spaces filled, what happens to it? Can it just be landscaped rather than an empty, ugly plot of land. How does the city plan to address parking along South Weber Drive, especially during the pick-up for Highmark? That area is a hot mess during the afternoon and while it may not be Highmarks problem or the new developments problem... it is the City's problem. That area is getting more and more congested and rather than making more room in the roads, or providing decent parking or carpool options, we just keep applying a bandaid and pushing it off. The school zone needs to be addressed, as does the parking along South Weber Drive.
- 2. Rezone of the Stephens Property: I don't think any zone changes should happen to this area without some kind of concept plan attached to it. If we change it, we open our city up to who knows what without a plan. Let's not get duped into another blanket zone change until we know for sure what the plan is for that entire parcel. Why request a zone change without some idea. Please ask for it to be shared with the council first.
- 3. No Turn on Red sign: Can we please petition to have that sign changed to apply hours to it. Maybe it only applies during the peak daytime hours. I have sat there for what seems like an eternity in the evening with only one or two cars coming down South Weber Drive. It seems like it would be an easy fix to a stupid sign that never should have been place there.

We have an opportunity with these rezones to keep us a small community. Please take advantage of them and help us stay as close to the way we are as possible. Please apply a sunset clause to all developments that are reasonable, but could make the zone go back to AG if the development changes hands or isn't finished in a certain amount of time.

Thank you for your time and I look forward to another interesting meeting. Amy Mitchell

#### Comments to South Weber City Council for 20Jul21 Meeting by Paul A. Sturm

#### **Public Comments on Meeting Packet**

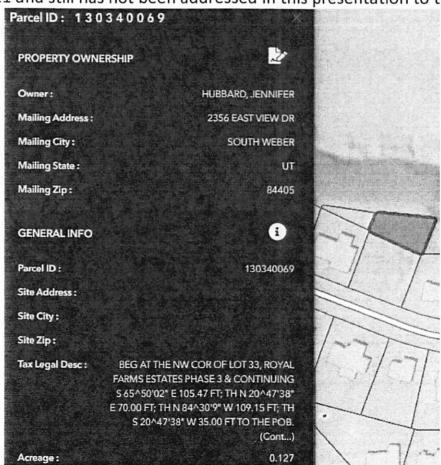

Agenda Item #6 - Packet Page 90 of 138, Ordinance 2021-10: Rezone South Weber Gateway, Applicant: Colliers International.

I have several concerns with the information provided by Mr. Brad Brown and Mr. Skye Hazlehurst for this City Council meeting. I expressed these same concerns during the Planning Commission meeting of 10Jun21.

1) In the Zone Change Application, Brad Brown is requesting a rezone from A to H-C. SWC does not have an H-C zone. There is a Highway Commercial (SWC -C-H) zone, but, although this is only a transposition, it is inaccuracy in an official document.

<u>Please Note:</u> This inaccuracy was noted during my presentation to the Planning Commission meeting of 10Jun21 and still has not been corrected.

2) On page 97 of 138 (Green Area), I have a question regarding the south central portion of the property as depicted. It appears that a corner of this parcel, as shown below, should be "Residential" and would not have been designated as "Agricultural" as presented. It is also owned by Jennifer Hubbard, not the Farrell Poll trust. This needs to be reconciled. <a href="Please">Please</a>
<a href="Note: This inaccuracy was also noted during my presentation to the Planning Commission meeting of 10Jun21 and still has not been addressed in this presentation to the City Council.</a>

On Packet Page 98 of 138, in Mr. Hazlehurst's letter at the first bullet, he states "Phase 3) One of the project shall have a minimum of three retail pads constructed concurrently with no more than 33 townhome units. As depicted in Sketch Plan dated 5/24/21, Sketch number 7152-05". Once again the developers appears to not listen nor pay attention to what either the City Council and Planning Commission have told them in the past regarding this development. During prior presentations the developer was told on several occasions, by several members, that subdivisions with more than 30 units should have a second exit since this is a safety issue. [Please see SWC Code 11-4-4 (below), including Paragraph 3]. Please **Note:** This fact concerning a potential violation of City Code in the sketch plan was noted during my presentation to the Planning Commission on 10Jun21. This has not been modified for this City Council presentation. Mr. Hazlehurst acknowledged the City Code information regarding only 30 units with one exit during these meetings and presentations, also as pointed out by Councilman Winsor. Yet the developers come back with a statement (see above) and a sketch plan drawing that shows 33 units. This either appears to blatantly ignore the information provided by the City, or is possibly an attempt to circumvent SWC Code or push past its limits. Their response, during the Planning Commission meeting, to alleviate this issue made no sense, i.e., to push the lower road through the Phase 2 area yet to be addressed.

IAW Subparagraph A. of 11-4-4, the City may grant a waiver, under specific conditions, such as topography, that I believe does not apply to this parcel since a Phase 2 sketch plan is also being proposed at this time on adjacent land. I believe that this is a possibly another warning sign and believe the developer needs to be watched closely as this project proceeds.

#### 11-4-4: STREETS, EASEMENTS AND NUMBERS:

A. Arrangement: The arrangement of streets in the new subdivision shall make provision for the continuation of existing streets in adjoining areas (or their proper protection where adjoining land is not subdivided) at the same or greater widths (but in no case less than the required minimum width), unless variations are deemed necessary by the planning commission. The street arrangements must be such as to cause no unnecessary hardship to the owners of adjoining property when they plat their own land and seek to provide for convenient access to it. Proposed public streets shall be extended by dedication to the boundary of such property. Private rights of way or streets may be permitted by the planning commission if, in its opinion, the right of way is not needed as a public street to provide access to adjacent properties or to fulfill a recommendation of the general plan and the lots meet the provisions of the zoning title for private right of way development. Half streets along the boundary of land proposed shall not be permitted.

- 1. Every dwelling structure which lies farther than one hundred fifty feet (150') from a public street to the nearest point on the structure shall be accessible to fire department apparatus by way of an access road having all weather drivable and maintainable surface with not less than twenty feet (20') of unobstructed width and thirteen feet six inches (13'6") of vertical clearance with adequate turning radius capable of supporting the imposed loads of fire apparatus.
- 2. Dead end access roads in excess of one hundred fifty feet (150') in length shall be provided with approved provisions for a fifty foot (50') radius turnaround for the turning around of fire department apparatus.
- 3. Developments where the number of residential building units exceeds thirty (30) along a single street shall have a minimum of two (2) ingress/egress routes which are two (2) fully improved city rights of way. Thirty (30) residential units shall include all proposed residential units and all existing single-family buildings and lots, empty building lots, and each apartment unit located along a single road up to and including the nearest intersection with two (2) existing means of ingress/egress.
- a. The City Council may grant a waiver to these regulations for more than thirty (30) residential units with one point of improved ingress/egress when unique topographic circumstances or "landlocked" (physically restrained from other access points) from adjacent, existing developments circumstances exist. A waiver of these regulations may require the City Council, with the recommendation of the City Engineer and Fire Chief, to apply additional development requirements to enhance public safety standards.
- A development that extends more than one thousand eight hundred feet (1,800') from a connecting street will have a second ingress/egress. (Ord. 13-08, 2-26-2013)

# **Agenda Item Introduction**

**Council Meeting Date:** 08-24-2021

Name: Lisa Smith

Agenda Item: Primary Canvass of 2021 Election Returns and Certification of

Results

**Background:** State election law assigns the municipal legislative body to act as the board of municipal canvassers. Canvass is required to take place between seven and fourteen days after the election. The board must publicly declare those persons who had the highest number of votes and certify the vote totals for each individual in the primary election. The board issues a certification statement which includes the total number of votes cast, name of each candidate, the office on the ballot, the number of votes for each candidate, the number of ballots rejected. The board must review and sign the report and declare nominated the top two vote recipients for the position to be placed on the November ballot.

The county provides the information but will not provide the final numbers until just prior to the canvass therefore the numbers will be provided to the Board of Canvassers in writing prior to the meeting.

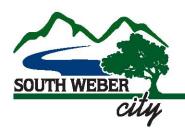

**Summary:** Council, acting as Board of Canvassers, must certify primary election results and declare winners nominated.

# **About South Weber**

South Weber is located in the northeast corner of Davis County and is bordered in the north by Interstate 84 and the Weber River, east by Highway 89. Hill Air Force base defines the border in the south. Land area equals a total of 4.7 square miles.

The City proximity to outdoor pursuits such as, fishing, mountain biking, skiing, and

lakes while simultaneously being close to shopping added with the city's ability to maintain a small town vibe brings many to settle here. The city prides itself with the amount of parks and trails the city maintains. Recently, citizens worked together to get donated money for pickleball courts. These will be installed in the coming years.

Historically, South Weber is known for the Morrisite war in 1862 and a Sasquatch sighting. Presently, South Weber is known for their annual Country Fair Days, which occurs every year in Aug. The celebration last six days and is a perfect example of how the community comes together in unity.

# **Mission Statement**

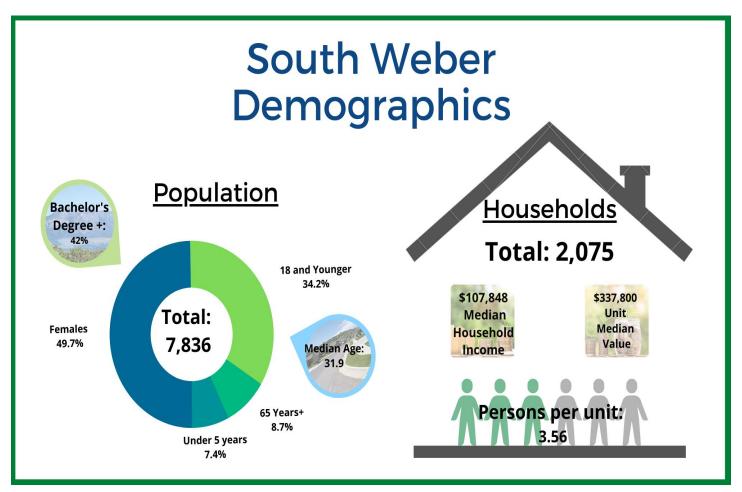

To enhance the quality of life by providing municipal services, protecting life and property with fiscal responsibility, while preserving our heritage for the citizens of South Weber City.

## **Vision Statement**

A family-oriented community that provides sufficient amenities and infrastructure for residents.

# South Weber's Strategic Goals

A strategic plan is a vital tool for South Weber to ensure that the priorities set by the City Council are conveyed in the organization's goals, that strategies are clearly developed to meet the goals, and that overall city government is accountable to meeting community needs. Strategic goals are created by collaboration between City Council and the City Manager. The goals are guided by the Capital Facilities Plan, infrastructure plans, and needs of the community.

# **Strategic Directives**

#### **Public Safety**

To ensure a safe community environment by providing effective emergency services, protecting citizens and property, being prepared for a major emergency, and mitigating potential hazards.

# Infrastructure, Equipment & Municipal Services

Create a beautiful, long- lasting community by maintaining quality, compliant, high-functioning, systems; budgeting infrastructure projects; maintaining a recreation program and justice court; and supporting community events. Systems and projects are categorized into these groups: culinary water, sewer, storm drain, streets, parks, and trails.

### Fiscal Sustainability & Planning

Ensure long-term services by reviewing and updating Capital Facilities Plans, General Plan and land use code; maintaining family-friendly culture of community; maintaining sustainable tax structure, utility fees, and infrastructure; solidifying northern city boundary line; and actively participating in state legislative advocacy.

## **Community Engagement**

Engage community in positive interactions with the city by providing excellent customer service, sharing and creating easy access to information, improving marketing of city events, increasing social media followers, and preserving community unity through city service opportunities.

#### **Employees**

Ensure effective functioning by hiring quality employees, retaining high-performing employees, creating an environment that can enhance performance, and maintaining quality policies and procedures.

# **Basis of Budgeting**

#### Accounting vs. Budgeting Basis

The basis of accounting or budgeting refers to the timing of when revenues and expenses are recognized in the accounts and reported on the financial documents. In South Weber City the basis for accounting is not the same as the basis for budgeting. The City contracts with an independent auditor to prepare the City's annual audit in conformance with Generally Accepted Accounting Principles (GAAP), which require an accrual basis of accounting for certain funds. The budget is not prepared using the accrual basis of accounting; therefore, the budget cannot be compared to information reported in the annual report in all cases.

The general governmental funds (General, Capital Projects, and Special Revenue) are budgeted on a modified accrual basis and can be directly compared to the fund operating statements in the city audit. The Enterprise Fund types (Water, Sewer, & Solid Waste) are also budgeted on a modified accrual basis but are depicted in the audit report using an accrual basis. Therefore, these funds are not directly comparable between the two documents.

#### Accounting Basis

The City's Audit reports the status of the City's finances in accordance with GAAP. The accrual basis of accounting is used for all funds at the entity-wide reporting level. At the fund level, the accrual basis of accounting is used for all funds except the governmental fund types, which use the modified accrual basis of accounting.

The modified accrual basis differs from the accrual basis in the following ways:

- Purchases of capital assets are considered expenditures.
- Redemptions of long-term debt are considered expenditures when due.
- Revenues are recognized only when they become both measurable and available to finance expenditures of the current period.

- Inventories and prepaid items are reported as expenditures when purchased.
- Interest on long-term debt is recorded as an expenditure when due.
- Accumulated unpaid vacation, sick pay, and other employee benefits are considered expenditures when paid.
- Depreciation is recorded on an accrual basis only.

## **Budget Format**

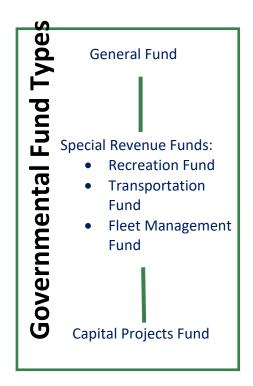

The financial transactions of the City are recorded in individual funds. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is used to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

The City's budget is presented and approved as funds. Fund accounting is the methodology used as the standard for governmental entities. There are two fund types in the South Weber City budget:

Department	General Fund	Special Fund	Capital Projects Fund
Legislative	Χ		
Judicial	Χ		
Administrative	X	Χ	Χ
Public Safety	Χ		
Fire & EMS	X		Χ
Community Services	Х		
Streets		Χ	Χ
Parks	X	Χ	X

governmental funds, and proprietary funds. Within these two types are classification as shown below, with the name of the budgeted funds within those classifications also noted.

The public can get involve in budget decisions by coming to and expressing opinion through open Council Meetings and Truth in Taxation hearings, when applicable. The public may also contact the Mayor and City Council for concerns or needs. From there the Mayor and Council Members will bring concerns to the City Council. City Council meeting are held twice a month on Tuesdays. More information can be found on the City website.

# Budget Process

## **PLAN**

City Council with City manager and key administrative staff work to identify budget priorities.

## **PREPARE**

The City Manager along with key administrative staff prepares a proposed budget and council oversees budget changes.

## REVIEW

The Council receives the Manager's proposed budget and reviews major budget changes with key administrative staff.

## **AMENDMENTS**

The budget process allows for amendments throughout the fiscal year, which requires require a public hearing and majority vote of the Council.

## **ADOPT**

The Council adopts the final budget in June or in August if a change in the certified tax rate is proposed.

## **ADJUST**

The Council holds public hearings and considers the public's feedback, adjusting the budget to reflect any final changes.

## **Long-term Financial Polices**

South Weber City was incorporated on August 1, 1936. The City operates under a six member Council (one of the Council Members acts as mayor with no voting power) form of government and provides the following services as authorized by its charter: public safety, highways and streets, parks, recreation, planning and zoning, water, sewer, storm sewer, and general administrative. The financial statements of South Weber City are prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more

significant policies.

### (A) Balanced Budget:

Pursuant to §10-6-109, Utah Code Annotated, South Weber City will adopt a balanced General Fund budget by June 20. South Weber City maintains a balanced budget, which means the revenues and expenditures are equal. Each governmental fund shows budgeted adjustments to the fund balance to accomplish the goal of a balanced budget. The current budget shows a balanced budget for all governmental funds. Budgeted Use of Fund Balance or Budgeted Increase in Fund Balance is used to balance budgets. These accounts are used to acknowledge that the City Council is choosing to either use fund balance or to increase fund balance by approving expenditures that are less than the budgeted revenue.

#### (B) The Reporting Entity:

For financial reporting purposes, the reporting entity includes all funds, agencies, and authorities for which the City holds corporate powers, and all component units for which the City is financially accountable. GASB has established criteria to consider in determining financial accountability. The criteria are: appointment of a majority of the voting members of an organization's governing board and, either (1) the City has the ability to impose its will on the organization or, (2) there is potential for the organization to provide specific financial benefits, or impose specific financial burdens on, the City. The City currently does not have any component

#### (C) Government-Wide and Fund Financial Statements:

The Statement of Net Positions presents the City's assets and liabilities, with the difference reported as net position. Net positions are restricted when constraints placed upon them are either externally imposed or are imposed by constitutional provisions or enabling legislation. The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses

are those that are clearly identifiable within a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function. Taxes and other revenues not meeting the definition of program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

### (D) Measurement Focus and Basis of Accounting:

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The use of financial resources to acquire capital assets are reported as

assets in the government-wide financial statements, whereas those financial resources are reported as expenditures in the governmental fund financial statements. Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, whereas they are reported as another financing source in the governmental fund financial statements. Amounts paid to reduce long-term debt in the governmentwide financial statements are reported as a reduction of the related liability, whereas the amounts paid are reported as expenditures in the governmental fund statements.

Governmental Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter (generally within sixty days) to pay liabilities of the current period. Expenditures are generally recorded when a liability is incurred, as under the accrual method of accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded when payment is due.

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows, liabilities, deferred inflows, revenues, fund balance, revenues, and expenditures or expenses as appropriate.

The City reports the following major governmental funds:

- General Fund The General Fund is used to account for all financial resources of the City not accounted for by a separate, specialized fund.
- Recreation Fund Special Revenue Fund is used to account for the sports and recreation functions of the City.
- Capital Projects Fund- The Capital Projects Fund is used to account for financial resources used for the acquisition or construction of major capital improvements (other than those financed by proprietary funds).

The City reports the following major enterprise funds:

- Water Utility Fund is used to account for the water services provided.
- Sewer Utility Fund is used to account for the sewer services provided.
- Garbage Utility Fund is used to account for the garbage services provided.
- Storm Sewer Utility Fund is used to account for the storm sewer services provided.

As a general rule the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments to the General Fund by the Enterprise Funds for providing administrative, billing, and repair services for such funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions

concerned. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods

in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the enterprise funds are charges to customers of the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### (E) Budgets:

Annual budgets are prepared and adopted before June 22 for the fiscal year commencing the following July 1, in accordance with the Uniform Fiscal Procedures Act for Utah Cities. State law requires budgeted revenues to equal budgeted expenditures, and legal control is exercised at the department level. Once a budget has been adopted, it remains in effect until it has been formally revised. Budgets for the general fund, special revenue, and capital projects funds are legally required, prepared and adopted on the modified accrual basis of accounting. Therefore, no reconciliation between budgetary schedules and the GAAP statements is required.

The Budgetary Comparison schedules presented in this section of the report are for the City's general fund and major special revenue funds. Original budgets represent the revenue estimates and spending authority authorized by the City Council prior to July 1. Final budgets represent the original budget amounts plus any amendments made to the budget during the year by the City Council through formal resolution. Final budgets do not include unexpended balances from the prior year because such balances automatically lapse to unreserved fund balance at the end of each year.

Utah State allows for any undesignated fund balances in excess of 5% of total revenue of the general fund to be utilized for budget purposes. The law also allows for the accumulation of a fund balance in the general fund in an amount equal to 25% of the total estimated revenue of the general fund. In the event that the fund balance, at the end of the fiscal year, is in excess of that allowed, the City has one year to determine an appropriate use and then the excess must be included as an available resource in the general fund budget.

## (F) Taxes:

In connection with budget adoption, an annual tax ordinance establishing the tax rate is adopted before June 22 and the City Recorder is to certify the tax rate to the County Auditor before June 22. Budgets for the general, special revenue, debt service and capital projects funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). The above procedures are authorized by the Utah Code Sections 10-6-109 through 10-6-135.

All property taxes levied by the City are assessed and collected by Davis County. Taxes are attached as an enforceable lien as of January 1, are levied as of October 1, and are due November 30; any delinquent taxes are subject to a penalty. Unless the delinquent taxes and penalties are paid before January 15, a lien is attached to the property, and the amount of taxes and penalties bears interest from January 1 until paid. If after five years, delinquent taxes have not been paid, the County sells the property at a tax sale. Tax collections are remitted to the City from the County on a monthly basis.

## **Budget Overview**

May 11, 2021

To the South Weber City Mayor, City Council, and Citizens:

It is my pleasure to present the Fiscal Year (FY) 2021-2022 Budget. A public hearing was held on June 8, 2021 on the Tentative Budget. The final FY 2021-2022 Budget will be adopted in August 2021. As one of the most important policy documents the City adopts, the budget is published to provide detailed

information to the South Weber City Council, Citizens, the State of Utah, the South Weber City Administration, Business Groups, and any other interested parties or individuals with detailed information regarding the financial condition and plans of the City from July 1, 2021 to June 30, 2022. The City's Budget Officer is tasked with presenting an accurate and complete budget to the City Council for formal approval in an open and public meeting.

The budget is the City's financial plan for the 2021-2022 fiscal year. It is a representation of the financial guidance necessary for the thoughtful and considerate implementation of the goals and plans of the Mayor and City Council. The budget is constructed with a conservative forecast of underestimating revenues and overestimating expenses. All revenues and expenditures are scrutinized and monitored throughout the year by the administrative staff using systematic, aggressive internal financial controls. Safeguards have been implemented to monitor, authorize, and analyze expenditures. These procedures and controls provide staff with the ability to adjust for the impact of unanticipated changes to the economy without causing dramatic variations in service levels.

### **Budget Summary**

Davis County is the smallest county in land area in the state, but the third most populous. Davis County has 11.09% of Utah's population. In February 2020, the unemployment rate was 2.60%. The rate in February 2021 was 3.10%. During last year's COVID-19 pandemic, Davis County's unemployment rate hit a high of 9.00% in April 2020. These county statistics and the following table are taken from the Davis County Annual Report – 2020 Assessor's Office.

Total Value–South Weber	2019 Property Values	2020 Property Values	% Change
Overall Total	780,369,026	868,160,172	8.69%
Avg. Single Family	359,765	373,547	3.83%
Avg. Condo/Attached PUD	191,521	209,819	9.55%
Total Assessed Commercial	17,929,442	21,153,272	17.98%

Throughout the last few years, City staff and elected officials have worked alongside with citizens, non-profit organizations, and enterprise groups to take a comprehensive look at the overall health of South Weber City; specifically, in terms of economic growth, infrastructural and facility repair, and improved fiscal

management. Collectively, South Weber City officials continue to create long range plans which will, over time, promote an improved environment of health, safety, and wellness for its residents and guests. Modifications in the budget this fiscal year support the goals the City has set in support of these plans. In FY 2021 - 2022, total budgeted General Fund Revenue equals \$3,364,000. The major summary of fund expenditures, including contributions and transfers, are: \$3,487,000 General Fund, \$3,370,000 combined enterprise funds (Water, Sewer, Sanitation, and Storm Drain), \$1,920,000 Capital Projects, \$892,000 Transportation Utility, and \$311,000 Recreation fund.

The City Administration is continually looking for improved methods of operation and procedure in its approach to budgeting in order to efficiently control the expenditure of city funds. Fund balance allocations and reserves will be made as necessary to maintain a fiscally sound budget and financial policies.

#### **Budget Priorities and Services**

The FY 2021-2022 Budget is prepared to meet the priorities of South Weber City. In January of 2018, 2019, 2020, and 2021, the City Council held several meetings to discuss the economic, infrastructural, and financial future of the City. In those meetings, several priorities were identified and converted into goals to be

achieved in the FY 2021 – 2022 Budget. South Weber City is committed to providing ongoing services to its residents through its utility enterprise funds, parks and recreation facilities and programs, and contracts with the Davis County Sheriff's Office for Law Enforcement, Dispatch, and Animal Services.

South Weber City maintains its own culinary water system (supplied with water from a City well and from the Weber Basin Water Conservancy District), sanitary sewer collection system (with treatment provided by the Central Weber Sewer Improvement District), storm drain system (supported by membership in the Davis County Storm Water Coalition), street repair system (supported by Class C Road Funds, and by private contractors chosen by competitive bidding who complete major streets projects), Fire Department and Emergency Management services (enhanced by Mutual Aid

Agreements with other jurisdictions), Justice Court (provides adjudication services and sense of community identity), and support of the traditional and longtime community celebration of Country Fair Days (which identifies the values and culture of the South Weber City residents).

To reduce costs, South Weber City also contracts for the following services: information technology services; inter-local agreements with Davis County for law enforcement, dispatch, animal control, elections; and Wasatch Integrated Waste Management District and Robinson Waste for solid waste (garbage removal) services in conjunction with City-owned garbage cans and City billing services.

South Weber City also provides other municipal services, such as notary public services, water leak detection, recreation, and parks.

#### **Population Growth and Commercial Development**

South Weber City continues to experience persistent population growth. Construction in South Weber City within the last 3 years has noticeably increased. Investments have been and continue to be made to the City's infrastructural systems to provide for additional new office buildings, retail space, and residential housing. New residential dwellings continue to be constructed and the arrival of new commercial business is surfacing. In the coming years, the City will begin to see property taxes coming in from the new residential housing growth.

The City's General Plan and the current zoning map envisions and provides for additional residential development; however, the City needs additional commercial development zones that appeal to profitable business groups. Economic development continues to be a main priority and an essential need for the City's viability as it has potential to alleviate the service cost pressures of

streets, police, fire, and parks through sales tax revenue. At present, South Weber City cannot sustain the same level of service it currently has under the existing financial business model. Currently, the City has only one consistent source of revenue - property tax.

#### **Budget Guidelines and Principles**

The Mayor and City Council have directed staff to prepare all budgets and funds under the following guidelines and principles:

- City Council Execute the policies and directions of the Mayor and City Council.
- Fiscal Responsibility Enterprise funds should be self-sustaining and "one-time" revenues are to be used for "one-time" expenses; on-going revenue sources should be used to pay for on-going expenses. Evaluate the health of the City's revenue sources on a regular basis. The General Fund should be supported by diverse revenue sources (property, franchise, and sales taxes) that do not cause instability.
- <u>Asset Management</u> Develop capital facility plans for utilities, facilities, and other capital
  infrastructure that are supported by strategic financial plans. Capital facilities plans should be
  developed with impact fee facilities plans, and impact fee analysis every six years.
- <u>Compensation</u> Establish and follow a market-driven compensation plan that will entice and retain high-quality employees.

- Reserves Manage General Fund reserves in conformity with state law and establish enterprise fund reserves to sustain emergencies and infrastructure replacement.
- Planning Plan with the big picture in mind. Seek feedback and input from the community.

#### **Financial Highlights**

### General-

- The assets of South Weber City exceeded its liabilities at the end of the 2020 fiscal year by \$37,090,000 (net position). Of this amount, \$8,546,994 (unrestricted position) is available to meet ongoing obligations of citizens and creditors. Net position increased by \$5,381,186 from the prior year.
- The City's Governmental activities reported a combined ending fund balance of \$17,638,932. Of the combined total fund balance, \$2,627,775 is available for spending at the discretion of the City (unrestricted and undesignated fund balance).
- The unassigned fund balance of the general fund on June 30, 2020, totaled \$638,856 and is 24.4% of the general fund total revenue for the year.
- Total principal balance of debt for South Weber City decreased approximately \$199,555 due to principal payments on bonds.
- Several developments were completed during the year, and the related infrastructure was contributed to the City. Capital assets were added in the Water, Sewer, and Storm Drain Funds, as well as the general fixed assets of the City.

#### Expenditures-

#### Personnel:

South Weber City has experienced several significant challenges concerning its workforce. Many of these challenges are attributed to the large amount of growth that has taken place and the recent surges that

have occurred in the labor market. The labor market has improved significantly over the last several years making the City's competition to be against both the private and public sectors.

In addition, employment in the public-sector labor market has been dominated by neighboring area communities, both large and small. The attrition of these economic and market transformations has impeded the City's ability to be productive and cost effective.

As a result, the Mayor and Council have recognized that the ultimate benefit to South Weber City residents is the incalculable cost savings of retaining high quality employees. In an effort to address these concerns, several goals and objectives were identified:

- 1. Create a competitive compensation plan.
- 2. Establish control groups whereby data can be obtained (benchmarks)<sup>1</sup>;
- 3. Collect the necessary market data from the benchmarks; and
- 4. Remain fiscally responsible, yet have the ability to attract, retain, and motivate high performing employees.

On May 16<sup>th</sup>, 2017, the City Council adopted a compensation plan that would take the average of the selected benchmarked cities and adjust the [City's] position ranges (min/mid/max) -15% below the average of the selected benchmarked cities. Below the average means that South Weber City would pay -15% below the average wage that an area, similar, and next step community would pay for any given position; allowing South Weber City to stay competitive, retain employees, yet not be subject to the higher compensated salaries of area, similar, and next step communities.

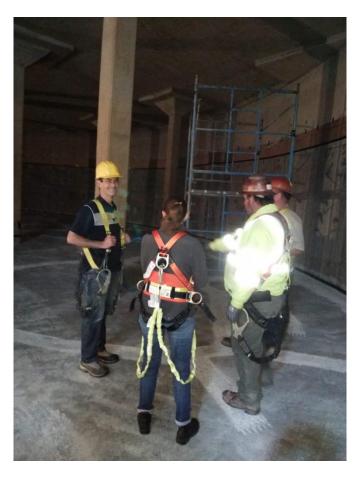

The City Council also adopted, in its policy, that range adjustments are to be conducted every two years to prevent the City from having to address this matter in the years to come. This was last completed and reviewed in June 2020. Compensation is contingent on performance and the availability of funds. A significant portion of the City's workforce is non-benefited (seasonal and part-time).

This last year the city formalized its employee certification compensation program. This program establishes, recognizes, and compensates for specific job-related certifications earned by employee

#### Operations:

Public Safety is a major component of the General Fund. Over the prior years, the Emergency Medical Service level of South Weber has been significantly raised to the benefit of our citizens. Medical response time has decreased from an average of 10 minutes to only 4 minutes. Staffing has changed from 11 volunteers to 35 part-time professionals, most of whom work full-time at other EMS agencies. This reduced response time and increased level of training is critical when seconds count in a medical emergency. Our EMS service level was also increased in 2018 with the addition of our own ambulance service. This needed increase in EMS service level has not come without a cost. Funding has been accomplished by a major property tax increase in 2019.

The Planning and Zoning department has been renamed Community Services to reflect the functions and duties of the department more accurately. In addition to the name change, the position of Community Services Director has been created, code enforcement has been moved from the Administrative department, and the contracted Planner position has been eliminated.

#### Capital:

A significant component of the Mayor and Council's "Priorities and Fundamental Focus" is the maintenance of the City's infrastructure, particularly the roads. The funding of Capital Projects is a fundamental financial tool that appropriates funds to maintain the assets of the City. As noted in the Operations section above, this funding has diminished significantly as resources have shifted to maintain the operational service levels of the City. In June of 2017, the Mayor and Council adopted a Transportation Utility Fee (T.U.F.) and created the Transportation Utility Fund, for the preservation, maintenance, and operations of the South

Weber City owned public roads. In doing this, restricted funds for roads have been implemented without a property tax increase. The Transportation Utility Fee funds are restricted monies to be used for the sole purpose of the preservation, maintenance, and operations of South Weber City owned public roads. TUF fees

cannot be used for the construction of new roads. Funds originating from the Transportation Utility Fee shall be expended in accordance with the priorities indicated in the South Weber City Streets Capital Facilities Plan, the current remaining service life of roads, and/or as directed by the South Weber City Council. Other sources of revenue in this fund are Proposition 1 Local Option Sales [Gas] Tax and a portion of Class 'C" Road funds. These last two revenues are collected and allocated by the State of Utah.

South Bench Drive Phase 1 was started in 2019 and was completed in the 2020 budget. The original street name has been changed to Old Fort Road. Future Impact Fees will eventually reimburse the Capital Projects fund for the Class "C" portion of the project

The rehabilitation of the Westside Water tank has been studied for the last three years. Various options including total replacement or major rehabilitation have been carefully studied. The rehabilitation of the tank was started in 2018 and completed in the 2020 budget year.

Equipment and vehicles are an integral part of the day-to-day operations of the city. They are also a major operational expense, especially as they age, and maintenance costs increase. The City Council has adopted a new policy which establishes a long-term funding source for this expense and addresses the several challenges all cities face with these capital expenditures. This policy is designed to create a consistent, year to year budget program with level payments that can be anticipated and planned for. A Fleet Management Internal

Service Fund for the replacement of vehicles and equipment will be established. This fund will purchase/lease all vehicles and major equipment according to specific, predetermined schedules. The fund will be supported by yearly transfers from the various city departments paying their relative portion of the vehicle/equipment costs. The cash assets of the fund will be used annually for municipal leases and accumulate until there is enough to acquire the larger, longer-term replacement vehicles/equipment. You will see this new expenditure in most departments under "Vehicle Replacement Program".

The FY 2020-21 Budget's largest capital expenditure was a joint project between the Water Department and the U.S. Department of Labor on the East Bench Transmission Line Project. This joint project is financially beneficial to South Weber City as well as to the Job Corps facility to the east of the City. The Cost was \$ 2,415,000 of which \$1,865,000 is being paid by the federal government. A second joint project was the Cottonwood Drive water line upgrade. This project involved several parties for a cost of \$ 700,000. Other parties paid \$435,000 of that cost, resulting in a cost savings to both South Weber City and Uintah City.

### Revenue Highlights - Taxes and Fees

### <u>Taxes</u>

The Davis County Auditor's 2020 Certified Tax Rate for South Weber City is .001403, a decrease of approximately 2.6% from the previous year. This 2020 rate was adopted by the City Council on June 16, 2020. The Certified Tax Rate is based on the previous years assessed valuations across the entire city and the amount of property tax received. The Certified Tax Rate will go up or down as needed to arrive at the same amount of tax dollars the City received the prior year. The only way the City can get more property taxes than allowed by the Certified Tax Rate is to hold a Truth in Taxation hearing and make a case for a tax increase to the public. The Davis County Auditors 2020 certified tax rate revenue for South Weber City is \$754,002.

Two years ago, the City Council approved a major tax rate increase. This year the City Council has voted to again hold a Truth-in-Taxation hearing. The purpose of this year's hearing is to increase the rate equal to the paramedic rate previously assessed by the county. In 2023 Davis County will cease to provide paramedic services to the county. South Weber is preparing to take over providing paramedic services to its citizens through our Fire Department beginning October 2021. The county is dropping its special paramedic

levy and South Weber is increasing its rate an equal amount. This will mean a net zero increase to our citizens. South Weber will use this increase to pay Davis County for paramedic service until 2023. South Weber's proposed Certified Tax Rate is 0.001522 with a certified tax rate revenue of \$933,000.

#### Fees:

Central Weber Sewer Improvement District (CWSID) approved a 10% rate increase for sewer treatment fees charged to the City in the upcoming year. This year's budget includes a 6% increase in this pass-thru fee.

Sanitation rates were last increased on July 1, 2019 to reflect a \$0.25/ can increase from Wasatch Integrated Waste Management. In January of 2020, our contracted garbage hauler, Robinson Waste Increased their rate by \$0.25/ can and due to COVID-19 the City Council did not pass through this increase. On July 1, 2021 Robinson Waste will increase their rate an additional \$0.12 per can. This \$0.12 increase by Robinson Waste will be passed onto our customers in the 2021-2022 budget.

The culinary water rates were restructured and increased in 2018 to meet the infrastructure needs of the water system through 2025. The breakdown of these infrastructure expenditures is found in the Culinary Water Capital Facilities Plan. A public hearing on the new rates was held on May 15, 2018 and the new rates were adopted on May 22, 2018.

The Impact Fees for culinary water, sewer, parks, and recreation have been adopted. The public safety, and storm drain impact fees are in the process for completion and will be adopted this fiscal year. Now that the General plan has been updated, all Capital Facility Plans and Impact Fees will be reviewed this coming year and adjusted as necessary to be in line with the new General Plan.

In the General Fund and

Capital Projects Fund, sales tax revenues are anticipated to be \$1,100,000. The City Council has established a policy that \$200,000 of sales tax goes to the Capital Project Fund with a cap of 20%. The rest of the sales tax revenue is in the General Fund.

Building fee revenue has increased in the past three years. The Consolidated Fee Schedule is continually updated to meet the costs of current operations and can be found at the end of this document.

#### Summary

The attached budget is a balanced budget. South Weber City encourages, and is hopeful to have, public involvement in the budget process as it is a great opportunity for residents, business owners, and other stakeholders to participate in the City's governmental operations. Like years past, the City will hold an open and public meeting where the tentative budget will be presented and adopted (May 11, 2021). City administration has afforded four weeks from that date for consideration of public comment, suggestions, and review. A public hearing on the South Weber City Fiscal Year 2021 – 2022 Tentative Budget will be held on June 8, 2021 and adoption of the final budget by the City Council in an open and public meeting will be held on June 22, 2021.

As a result of thorough, firm, and responsible financial practices and due to the efforts of the City's dedicated staff in many long-range planning efforts, I believe South Weber City is poised for a very prosperous future.

Respectfully Submitted,
David Larson
City Manager
South Weber City

## **Budget Highlights**

## **Governmental Type Funds**

## Revenues

- <u>Property Tax (10-31-100)</u>. For 2021-2022, the City is proposing a property tax increase and to hold a truth-in-taxation hearing as we include the paramedic tax levy previously assessed by Davis County.
- <u>Sales and Use Tax (10-31-300).</u> Sales tax has increased from the previous year. The City budgets 80% of anticipated sales tax in this account and 20% in account 45-31-300 for Capital Projects.
- <u>Class "C" Road Fund Allotment (10-33-560).</u> The allotment totals over \$300,000 per year. Only a portion is budgeted to be applied to General Fund Street department expenses.
- <u>Subdivision Review Fee (10-34-105).</u> Developer payments for third party reviews and inspections are recorded here. Account 10-58-319 is the corresponding expense account.
- <u>Developer Pmts for Improvements (10-34-270)</u>. Payments by developers for streetlights, street signs, and mailboxes are included in this account.
- <u>Transfer from Impact Fees (10-39-800)</u>.
   Public Safety Impact fees are transferred to the General Fund to be applied to the bond payments on the fire station.
- Fund Balance. The law was changed in the 2021 legislative session raising the maximum from 25% to 35%. It is the city's intention to eventually move to the full 35%. This is the maximum of the General Fund's total revenues for a year that can be kept in the fund balance. It is the city's intention to eventually move to the full 35%. This fund balance is for operating cash until property tax is received around

November and for emergencies. The current balance is \$638,856.

- <u>Transfer from Impact Fees (45-39-800).</u> \$166,000 from Park Impact fees is budgeted to be transferred to Capital Projects for reimbursement of 2020-2021 Canyon Meadows West projects. \$140,000 in new Road Impact Fees will be transferred to the Capital Projects Fund as reimbursement on South Bench Drive Phase 1.
- <u>Transfer from Recreation Impact Fees (20-39-800).</u> Recreation Impact fees are transferred each year to the Recreation Fund to be applied to the principal and interest on the Family Activity Center's Bond.
- <u>Developer Pmts for Improvements (56-34-270).</u> Developers pay the City to have a seal coat applied to the asphalt streets in their development a year after the development is completed. The work is included as part of the projects of the Transportation Utility Fund.

## **Expenditures**

• Salaries and Benefits. A time analysis was done of employee hours to see where they were actually spending their time. The allocation of employee hours to the various departments was changed to reflect their actual workload. Some departments' salary and benefits were increased, and some decreased accordingly. The 2022 budget includes \$34,342 for merit increases which will be allocated according to personnel evaluations. This equates to an average

3% increase. The budget does not include a cost-of-living adjustment (COLA).

- <u>Judicial Travel and Training (10-42-230)</u>. Previously the travel and training costs for the judge were split between three cities. Beginning last year, the entire cost will rotate among four cities. This year all training is electronic on the web and there is no cost.
- Administrative Elections (10-43-316). Elections are held every two years. This is an election year, and this account has a budget of \$17,500 for 2022.
- Administrative Transfer to Recreation Fund (10-43-841). The Recreation fund sponsors many activities that are free to the public. A transfer is made yearly to cover the non-self-supported programs as needed. The transfer is in this department.
- <u>Administrative Transfer to Cap. Projects Fund (10-43-910).</u> This expenditure was replaced by the 80/20 split of Sales Tax revenue.
- <u>Community Services Salaries (10-58-110)</u>. This account reflects the largest change due to the reallocation of salaries for the Public Works Director, and the addition of the Community Services Director position.
- <u>Community Services Part Time Salaries (10-58-120).</u> This account reflects the largest change due to the reallocation of Code Enforcement officer from the Admin. Dept.
- <u>Community Services GIS/Mapping (10-58-325)</u>. This account was new to this department two year ago, as well as several other departments. The expense was previously included in the Engineering account (10-58-312).
- <u>Streets Equip. Supplies & Maint. (10-60-250).</u> Maintenance costs have decreased as older equipment and vehicles have been replaced in the last couple of years.
- <u>Streets Mailboxes and Street Signs (10-60-415).</u> A new account was created last year as city policy changed. Mailboxes and street signs are no longer installed by the developers but are purchased and installed by the City. Developers pay the City to do the work and the revenue is recorded in account 10-34-270.

- <u>Streets Streetlights (10-60-426)</u>. The new streetlight policy was adopted to reduce costs and provide uniformity to the city lights. Like the previous new account, developers pay for this expense.
- <u>Parks Salaries (10-70-110).</u> The Parks department budget shows the addition of one full-time employee last year. As the City has added new parks, and/or new retentions basins that are maintained as parks, the need for additional personnel has become necessary to keep the same level of service to the citizens.

## **Business Type Funds**

### **Revenues**

• <u>Sewer Sales (52-37-300).</u> Beginning on January 1, 2021, the Sewer department received a 3.42% increase in charges from the Central Weber Sewer Improvement District for treatment of sewage. This increase has been around 2% the last couple of years and is expected to be about the same in 2022. This increase hits the city midyear. An increase in the pass-thru fee is budgeted for this year.

- <u>Sewer Impact Fees and Sewer fund Balance</u> (52-38-910 and 58-39-500). Various projects from the Capital Facilities Plan are budgeted at \$1,000,000. Impact Fees and fund balance will be used to fund the project. Impact Fees collected in future years will reimburse the fund balance portion of the expenditure.
- Sanitation Fees (53-37-700). Robinson Waste is the service provider who picks up the garbage containers from our citizens each week. After almost 10 years, they increased the per can charge by \$0.25 on January 1, 2020. Because of savings in other areas, a pass thru increase of \$0.25 per can is NOT proposed for that fiscal year. They are also increasing their rates an additional \$0.12 per can on July 1, 2021 which will be passed thru with this budget.
- Storm Drain Revenue (54-37-450). The Capital Facility Plan (CFP), Impact Fee Facility Plan (IFFP), and Impact Fee Analysis (IFA) studies are currently underway. A rate study for storm drain charges will follow. A significant increase in these charges is anticipated to be

proposed to the council as soon as the study is completed.

## **Expenditures**

- <u>Salaries (nn-40-110).</u> Salaries in the Enterprise funds also reflect the allocation changes from the employee hour time analysis.
- <u>Water Purchases (51-40-491)</u>. The charges from Weber Basin increase each year as new homes are built and added to the system resulting in more water being used.
- <u>Water Meter Replacement (51-40-495)</u>. Each year the Water department normally replaces 200 meters on a ten-year rotation. This year the department will replace 400.
- Water Improvements other than Buildings (51-40-730).

0	Upsizing 8" pipes (Capital Facilities Plan Item 2),	\$ 750,000
0	CFP/IFFP/IFA.	\$ 50,000
0	East Bench Transmission Line (Re-budgeted)	\$1,000,000

- Water Vehicles (51-40-750).
  - Vehicle replacement program
     \$ 58,000
- <u>Sewer Treatment Fees 52-40-491).</u> Central Weber Sewer Improvement District raised their yearly charges 3.42% effective January 1, 2021.
- Sewer Projects (52-40-390).

0	CFP Projects	\$1,	000,000
0	CFP/IFFP/IFA	\$	50,000
0	Lift station generator	\$	34,000
0	Vehicle replacement program	\$	6,000

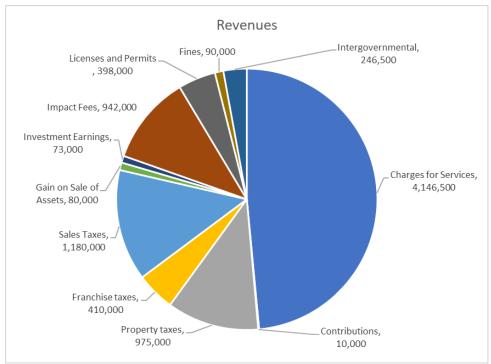

- <u>Sanitation Equipment Supplies and Maint. (53-40-250).</u> Increased yearly purchases of new garbage cans from 200 to 300.
- <u>Sanitation Fee Charges (53-40-492).</u> Reflects Robinson Waste collection charge increase of \$0.25 per can which was effective January 1, 2020 and a \$0.12 per can increase effective July 1, 2021.
- <u>Storm Drain GIS/Mapping (54-40-325).</u> Most of the GIS work done next year will be on the Storm Drain infrastructure.

## Revenue Summary

Revenues represent the various sources of income for an organization. The total revenues for South Weber combined funds for the Fiscal Year 2021, it amounts to about 14 million a decrease from the 2020 Fiscal Year. The decrease occurred primarily because of a decrease in one-time capital projects revenue from outside agencies and the end of CARES Act funding. Stability of the City depends on the city ability to ensure revenue for the next coming year. Operating revenues remain stable.

The tables below show the increase or decrease in revenues by fund. Revenue comes from a variety of sources. Each source will be discussed in the individual fund sections.

#### Revenue Forecasting:

The City has endorsed the recommended practices issued by the National Advisory Council on State and Local Budgeting addressing budgeting and financial planning, specifically the six revenue forecasting practices.

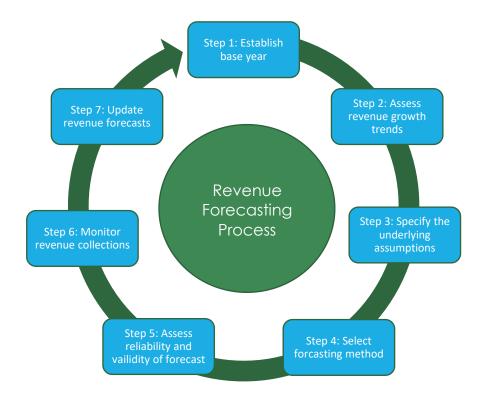

- Multi-year revenue/resource projections
- Maintaining an in-depth understanding of revenues/resources
- Assessing the effects of potential changes to revenue source rates and bases
- Periodically estimating the impact and potential foregone revenue/resources as a result of policies that
  exempt from payment, provide discounts and credits, or otherwise favor a particular category of
  taxpayers or service users.
- Developing a process for achieving consensus on the forecast of revenues used to estimate available resources for a budget.
- Preparing and maintaining a revenue manual that documents revenue sources and factors relevant to present and projected future levels of those revenues

#### Methodology:

When the City begins the budget preparation process, many factors are considered when determining future revenues. The City uses qualitative and quantitative approaches to forecasting revenues that include but are not limited to:

- Trend Analysis
- Economic Reviews and Publications
- Departmental Surveys
- National, State, and Local Policy Changes
- Comparing Revenue Collections against Projections
- Consensus, Expert, and Judgmental Forecasting

Both forecasting methods include global, national, state, and local analysis that may affect revenues and financial planning. Using data from previous years and other data noted above, the City projects the revenues. The additional revenue above the previous year is then apportioned to the various departmental requests depending on their importance, priority, and severity.

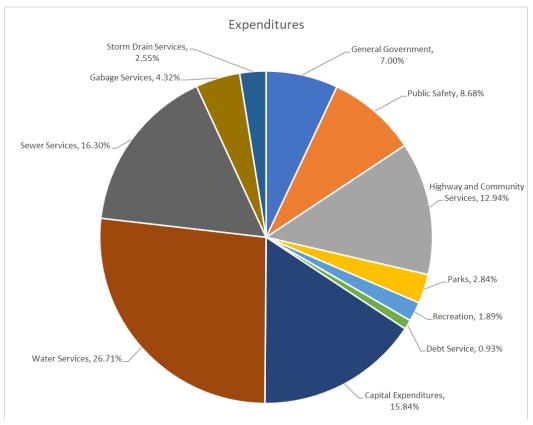

## **Expenditures Summary**

Expenditures illustrate where the City resources are going. These resources come in from revenues. The total operating expenditures for South Weber combined funds for the Fiscal year 2021 amounts to 14 million, an slight decrease from the estimated 2020 projection of 14 million. This decrease is largely due to the completion of a one-time Water Fund capital project. Below is a graph that explains the different areas that use revenues and tables describing the changes over the years and projections for the upcoming year.

## Expenditure Project Methodology:

Expenditure estimates are developed after revenue projections have been completed. Each department is asked to report its expenditure requests for the upcoming fiscal year. These requests include all financial needs for each respective department, except personnel costs, which are calculated by the Finance Department. The Budget Committee, which consists of the Finance Department, Mayor, and City Administrator, then meets with each Fund Manager to verify if requests fall within projected revenues or if some items need to be eliminated for the particular fiscal year. Following these meetings, a draft budget is completed and distributed to the City Council for changes and approval.

The City recognizes there will be uncertainty and changes throughout the fiscal year that may alter the projected expenditures. However, because the City forecasts and budgets conservatively, the budget should remain balanced, regardless of unexpected changes.

## **Debt Summary**

#### State Debt Limits:

The State of Utah has set debt limits on municipal general obligation debt. The limit is four percent (4%) for governmental funds and an additional four percent (4%) may be issued for water, sewer, and electricity. General obligation bonds are bonds that are secured by general property taxes. Currently, the structure of property taxes in the South Weber area does not provide for the City to receive sufficient revenue to maintain debt in any significant amount. South Weber City has never issued general obligation bonds; all of its bonds are revenue bonds which use a specific revenue source are pledged for which there is no imposed limit. The City, however, is limited by bond covenants that require the associated revenue to be at least double the annual debt service including principal and interest. An analysis of debt coverage is completed later in this section.

#### **Bond Ratings:**

South Weber City has gone through the rating process for both governmental funds and the Water Fund. The governmental funds are unrated because there have been no new bonds issued. The Water Fund was rated A+, which is very strong for a municipal government— especially one facing very rapid growth that puts great strain on resources. The Water Fund also includes a positive outlook increased from stable. The positive outlook means that the rating will increase if current improvement continues.

## **S&P** Global Ratings **S&P Rating Scale:** Extremely strong capacity to meet financial commitments AA Very strong capacity to meet financial commitments Strong capacity to meet financial commitments, but somewhat susceptible to adverse economic conditions and changes in BBB Adequate capacity to meet financial commitments but more subject to adverse economic conditions. BB Less vulnerable in the near-term but faces major ongoing uncertainties to adverse business CCC Currently vulnerable and dependent on favorable business, financial and economic conditions CC Currently vulnerable and dependent on favorable business, financial and economic conditions C Currently highly vulnerable to non-payment, and ultimate recovery is expected to be lower than that of higher rates obligations

## Long-Term Debt:

The following is summary of long-term debt transactions of the City for the year ended June 30, 2020:

#### **Governmental Activities**

 	Beginning Balance	Additions	Reductions	Ending Balance	Due within One Year	
Sales Tax Revenue Bond, Series 2012	_\$	767,000	\$ - \$	(87,000) \$	680,000 \$	91,000
Total governmental bonds payable		767,000			680,000	91,000
Compensated absences		41,146	36,204	(24,688)	52,662	31,597

Total governental long-term liabilit	ies _\$_	1,017,444	\$ 36,204 \$	(109,442) \$	857,206 \$	122,597

The direct placement revenue bonds contain a significant default provision wherein if the City does not pay the scheduled principal and interest payments the bondholder may require the City to increase rates sufficient to comply with the bond requirements or may petition the court to appoint a receiver. In addition, the bonds have an acceleration clause wherein upon default the bonds shall bear an interest at the rate of 18% until the default is cured. The City does not have any unused lines of credit.

Sales Tax Revenue Refunding Bonds, Series 2012:

The Sales Tax Revenue Refunding Bonds, Series 2012

were issued in February 2012. Original issuance amount of \$1,312,000 and carry interest at 2.970%. Interest payments are due semi-annually in January and July, with principal payments due annually in January, and mature in January 2027. The Sales Tax Revenue Refunding Bonds, Series 2012 were issued to refund a portion of the Sales Tax Revenue Bonds, Series 2004.

The annual debt service requirements to maturity, including principal and interest, for the Sales Tax Revenue Refunding Bonds, Series 2012, as of June 30, 2020 are as follows:

Year Ending June 30,	Sales Tax Refunding Bonds, Series 2012

Water Revenue Bonds, Series 2010:

The Water Revenue Bonds, Series 2010 were issued in August 2010. The \$3,445,000 revenue bonds carried interest ranging from 2.0% to 5.0%. Interest payments are due semi-annually in June and December, with principal payments due annually in June, and matures in June 2040. The proceeds of the bond were used to construct a culinary water storage reservoir, a pump station, and other related infrastructure. In 2017, the City refunded the Series 2010 bonds by issuing Water Revenue Refunding Bonds, Series 2017. The proceeds of the Series 2017 bond were deposited into an escrow which was used to redeem the Series 2010 bonds on June 1, 2020.

Water Revenue Refunding Bonds, Series 2017:

The Water Revenue Refunding Bonds, Series 2017 were issued in December 2017 to refund the Series 2010 Water Revenue Bonds. The \$2,800,000 refunding revenue bonds carry interest ranging from 2.0% to 5.0%. Interest payments are due semi-annually in June and December, with principal payments due annually in June, and matures in June 2039. The issuance of the Series 2017 bonds generated a premium of \$386,217. The bond proceeds, including the premium, together with funds from the debt service reserve account for the Series 2010 bonds were deposited into an escrow account which will be used to pay down the balance of the Series 2010 bonds, and ultimately retired those bonds when those bonds matured in June 2020. The advance refunding resulted in a deferred loss on refunding of \$84,695. The premium and deferred loss on refunding will be amortized over the life of the bonds.

The annual debt service requirements to maturity as of June 30, 2020 are as follows:

## **Fund Descriptions**

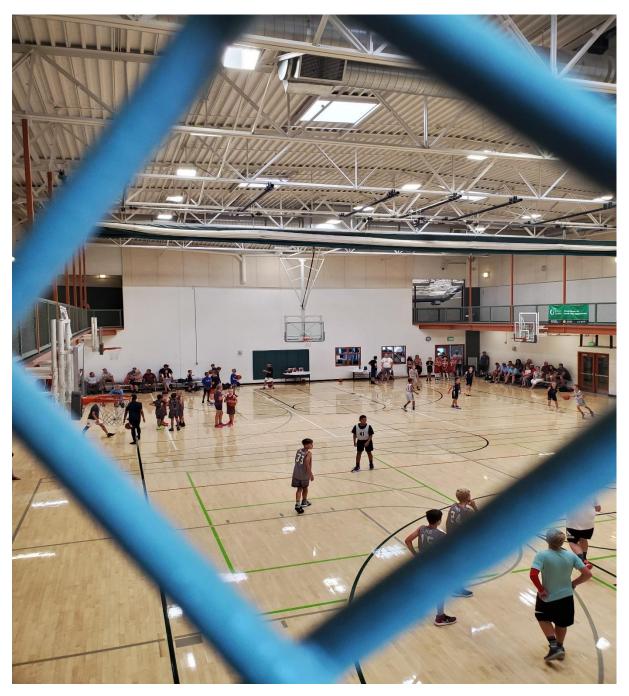

South Weber utilizes nine different funds to assist in tracking the allocation and use of resources based upon revenue collected within each fund. The nine funds are: General, capital projects, recreation, transportation utility, fleet management, water utility, sewer utility, sanitation utility, and storm drain. Descriptions of each fund are below, which will identify which funds are major and which funds are non-major. Major funds are those that constitute over 10% of total expenditures.

Fund balance is a crucial measure for understanding the financial health of any organization. Each fund starts the year with the previous year's ending fund balance. After revenues are added and expenditures are subtracted, the fund is left with an ending fund balance that is then used for the beginning fund balance next year. Fund balance is tracked for each individual fund and as a sum of the funds of the whole city. The general fund balance is dictated by state law that it remains between 5% and 35% of revenues. It was previously a maximum of 25% until legislation passed in 2021 allowed the increase.

## **General Fund**

The general fund of the City is the main operating fund and is divided into seven major categories of operation, each managed by a director. Inside those areas are smaller areas, headed by a manager under the supervision of the director. The directors report to the City Manager. The general fund of South Weber City is established to manage the operation and maintenance of all governmental services with the exception of public safety. Specific dollars items can be found in the respective departments.

## **Capital Projects Fund**

A capital project is a large, expensive, one-time project. Because they represent such a large cost, they are often considered "lumpy" in a budget and are therefore put in their own budget section. Separating capital projects ensures more stability when tracking other revenues and expenditures over time.

The Capital Projects Fund is a major fund and was created as a mechanism to provide for the purchase or construction of capital assets valued at \$10,000.00 or more where the asset life is more than 3 years, and the item is capitalized or depreciated. The most common types of capital projects are infrastructural: parks, streets, facilities, heavy equipment, and/or the purchase of land. Capital projects are financed by public funds, bonds, grants, loans, existing cash reserves, and impact fees as determined and directed by the South Weber City Council.

The next coming year South Weber Capital Projects include Vehicle replacement to ensure safety and effective services, changes to park equipment for kids to engage in safe play, additions to canyon meadows park based on the master plan, phase two of the park. This include pickleball, basketball courts along with more parking. Other projects include trails, updating city hall and improving the fire station and public work buildings.

### **Recreation Fund**

The recreation fund is considered a major fund. Its mission is to enrich the lives of the residents of South Weber City by promoting, developing, and maintaining recreational activities that afford children and adults with opportunities for growth, health, happiness, and personal development. The Recreation Department offers welcoming facilities, exercise equipment, and a variety of indoor and outdoor athletic programs for all ages. The South Weber City Recreation Department values citizen involvement and continues to establish a strong sense of community through the development of the social, cultural, and physical well-being of the city's residents and their visitors.

The Recreation Department maintains eight athletic fields that are used for Soccer, Flag Football, Lacrosse, T-Ball, and Softball, and six Baseball Diamonds. The Family Activity Center offers an indoor track, weight room, full size basketball court, and auxiliary programs of Yoga, Jump Rope, Tumbling, Karate, Hula Dancing, and Zumba classes to meet the interests and desires of the citizens of the community and their visitors. These programs offer a wide range of activities for all ages.

## **Transportation Utility Fund**

In 1937, The Utah State Legislature established a funding program called Class "B" (counties) & "C" (municipalities) as a means of assisting counties and municipalities for the improvement of roads and streets throughout the state. These Funds differ from ordinary local revenues inasmuch as they are subject to administrative direction by the State in accordance with legislative provision. The Utah Department of Transportation (UDOT) B & C Regulations Document designates the regulations which are acceptable to the Utah Department of Transportation (UDOT) in the administration of funds for counties, cities, and towns provided for by the Utah Legislature.

In 2016, the State Legislature passed House Bill 362 that provided an increase to the Class "B" & "C" funds called the Proposition 1 Local Option Sales [Gas] Tax. This additional funding authorized counties to enact a 0.25% general sales tax from the sales of fuel. Roads and streets that are eligible for Class "B" and "C", including Proposition 1 funding, must be under the jurisdiction and control of a county or municipality. In order to qualify for Class "B" & "C", including Proposition 1 road money, maintenance eligible roads and streets must be maintained to a minimum standard or higher.

Recognizing the current condition of the City's roads and the need for continual maintenance and preservation, on June 20, 2017, the Mayor and City Council adopted a Transportation Utility Fee. The City Council also

created this Transportation Utility Fund, which is a major fund. The Transportation Utility Fee funds are restricted monies to be used for the sole purpose of the preservation, maintenance, and operations of South Weber City owned public roads. Funds originating from the Transportation Utility Fee shall be expended in accordance with the priorities indicated in the South Weber City Streets Capital Facilities Plan, the current remaining service life of roads, and/or as directed by the South Weber City Council.

### Fleet Management Fund

New this year is the Fleet Management Fund. It is an Internal Service Fund and is a non-major fund. Equipment and vehicles are an integral part of the day-to-day operations of the City. They are also a major operational expense, especially as they age, and maintenance costs increase. The City Council has adopted a new policy which establishes a long-term funding source for this expense and addresses the several challenges all cities face with these capital expenditures. This policy is designed to create a consistent, year to year budget program with level payments that can be anticipated and planned for. This

fund will purchase/lease all vehicles and major equipment according to specific, predetermined schedules. The fund will be supported by yearly transfers from the various city departments paying their relative portion of the vehicle/equipment costs. The cash assets of the fund will be used annually for municipal leases and accumulate until there is enough to acquire the larger, longer-term replacement vehicles/equipment. This new expenditure can be seen in most departments under "Fleet Management Program".

### **Water Utility Fund**

The South Weber City Water Utility Fund is a major fund that is comprised of three fundamental areas of service:

1) Supply: administer water samples for safe consumption, manage reserves, and facility storage; 2) Distribution: maintain the appropriate quality, quantity, and pressure of the water system, including pipes and valves; and 3) Utility: meter reading, billing, and leak detection. The planning and engineering personnel oversee the long-range planning, design, and construction management of the water system improvements and extensions.

The City currently maintains 43.5 miles of pipe, 2,100 existing residential connections (ERC's), 4 water reservoirs, over 700 water valves, over 350 fire hydrants and conducts an average of 30 water samples per month to ensure the quality of safe drinking water. South Weber City progressively and continuously researches and implements the most efficient and effective methods for constructing and maintaining the City's culinary water

system to meet the requirements of the Utah Clean Water Act (UCWA) and the Federal Safe Drinking Water Act (FSDWA).

Secondary water is provided by four third party agencies based on the geographical location of a residence or commercial development. Secondary water is not provided by the City and is not considered a part of South Weber City's water infrastructure.

## **Sewer Utility Fund**

The South Weber City Sewer Utility Fund is a major fund and supports the maintenance, operations, and infrastructural needs of the sewer system. The planning and engineering personnel oversee the long-range planning, design, and construction management of the sewer system improvements and extensions. South Weber City is contracted with the Central Weber Sewer Improvement District for the treatment of wastewater.

South Weber City maintains 2,295 sewer laterals, 924 manholes, and 36.81 miles of sewer main lines. The City is progressively and continuously researching and implementing the most efficient and effective methods for constructing and maintaining the City's sanitary sewer system in accordance with the Utah Sewer Management Program (USMP).

## **Sanitation Utility Fund**

The Sanitation Utility Fund is a major fund. It has been created to aid in improving and confirming the service delivery of solid waste sanitation. The City is progressively and continuously researching and implementing the most efficient and effective methods for constructing and maintaining the City's solid waste sanitation system; to include: (1) the prevention and spread of disease; (2) the deterrence of nuisances and damage to property; and (3) the minimizing of environmental pollution. South Weber City has contracted with Robinson Waste Services, Inc. for its solid waste sanitation removal service. However, the City's personnel manage and maintain the supply and distribution of all solid waste receptacles in the city.

## **Storm Drain Utility Fund**

Picture created by Racheal Stahlman and Sabra Morin in Vancouver

The Storm Drain Utility Fund is a major fund and certifies that the discharge of storm water pollutants is eliminated. The City is progressively and continuously researching and implementing the most efficient and effective methods for constructing and maintaining the City's storm water system in accordance with Utah Pollutant Discharge Elimination System (UPDES), National Pollutant Discharge Elimination System (NPDES), and the execution of the City's Municipal Storm Water System (MS4) permit.

The planning and engineering personnel oversee the long-range planning, design, and construction management of the storm water system improvements and extensions. South Weber City maintains 10 detention basins, 621 manhole covers, 530 storm drain grates, and 22.30 miles of storm drain pipe in the ground. Many of the city's detention basins have a joint use where they are also utilized for recreation and athletic programs.

The Public Works Department's mission is to aid in improving the quality of life for the residents of South Weber by working proactively as a team. This is also accomplished as we research and implement the most efficient and effective methods for constructing and maintaining the city's storm drain system.

### **Legislative Department**

The legislative authority of the City is held within a six-member Council, with one Council Member serving as Mayor, with no legislative voting power. The mission of the Legislative Services Department is to enact ordinances and resolutions, approve an annual budget and make other financial policy decisions, direct and supervise the City Manager, ensure that services are provided in a cost-effective manner, provide nominal compensation, as well as training and education for elected officials and Planning Commission members, and provide policy direction for the benefit of the City, its residents, and businesses. To accomplish these important objectives, it is acknowledged that ongoing preparation and planning is realized, relationship development with neighboring public officials is attained, and that private individuals and groups are encouraged to participate in the future growth of the City.

Furthermore, the Mayor and City Council are committed to providing for a Youth City Council in order to provide leadership training and service opportunities for the youth who reside in the City, as well as to the Planning Commission which provides recommendations and decisions regarding all land use ordinances and applications. The Youth City Council is comprised of up to 11 youth. The Planning Commission is made up of five Commissioners appointed by the Mayor with advice and consent of the City Council.

Annually, the City Council establishes strategic priorities which are outlined in the City's strategic plan. The City's goals and action plans are established within the five strategic objectives of public safety; infrastructure, equipment, and municipal services; fiscal sustainability and planning; community engagement; and employees. Regular evaluation and reporting take place among City staff and elected officials on the progress made within each strategic objective, including an annual report to the full City Council at the annual planning and budget retreat held each January. Specifically, one strategic goals is promoting water conservation through code by May 2022.

## **Judicial Department**

The South Weber Justice Court was established in 1971 when the town changed into a City. Its mission is to improve the quality of life for the residents and non-residents who frequent the city. The Court has jurisdiction to adjudicate infractions and misdemeanors (Class B & C) when the violation occurred within city boundaries. Several law enforcement agencies issue citations into the South Weber Justice Court including Utah Highway Patrol, Davis County Sheriff's Office, and the Division of Wildlife Resources. Small claims cases which either occurred in the city or where the defendant resides in the city may also be heard if the suit is \$11,000 or under.

The South Weber Justice Court is dedicated to serving the public with respect and professionalism. The Judge is assisted in his duties by one court clerk and one assistant clerk. In order to ensure that the court is in compliance the State Evaluates the Judge and staff by surveying the public, lawyers, defenders. This occurs every four years. The latest re-certification took effect in 2020 and will continue till 2024. The Administrative Office of the Courts oversees Utah judicial matters and has found this court to be in full compliance with all standards, regulations, and guidelines. The court is a Class III Justice Court based on the volume of citations processed.

To provide consistent services the courts goal is to hold court twice a month. Due to COVID19, the court had to go from in person to video. The court still maintains twice a month court. The new added goal is to return to in person court by August 19th. Review for the actuality of this goal will be reviewed in August and will be based on COVID numbers, and CDC guidelines.

# **Administrative Department**

The Administrative Department's mission is to serve as the focal point of the City's day-to-day operations, provide support to all other City departments, and administer the programs and services of the City while implementing and enacting the policies of the Mayor and Council, carrying out directives of the City Manager through employee and contract relationships, and provide quality services to its residents and the businesses in South Weber City. The Administrative department is comprised of four full time and two part time employees and with assistance from other departments, the Administrative Department assures City services are provided efficiently within the budget adopted by the City Council. The administrative department created a new section of the city called Community Services. This department will be up and running by July 2021. The department also wants to be able to have a new website functioning by January of 2022.

# **Public Safety Department**

South Weber City contracts for public safety services through an interlocal agreement with the Davis County Sheriff's Office (DCSO) for Law & Alcohol Enforcement, Animal Control, and other related public safety services. The DCSO also provides the City with emergency planning and management services. South Weber City and DCSO are continually seeking new methods of ingenuity and resourcefulness to maintain a level of service that will ensure a gratifying quality of life, safety, and security for our community.

## **Fire Department**

The Mission of the South Weber City Fire Department is to protect lives, preserve property, and stabilize incidents involving fire, medical emergencies, and other dangerous conditions. The South Weber City Fire Department is dedicated to sustaining the health, safety, and wellness of the residents of South Weber City.

The Fire Departments Core Values are:

To **Prepare** effectively for Fire and Emergency Medical Response (EMS).

To **Engage** in bettering the community we serve.

To Affect the lives of those we serve in a positive manner.

To **Respond** professionally always.

To <u>Live</u> and uphold the oath of which we are sworn.

The South Weber City Fire Department is a full-time department operated by a part-time staff with a geographic response area of the city, that includes Highway 89, Interstate 84, and the Weber Basin Job Corps. The South Weber City Fire Department is committed to the assistance of neighboring cities, counties, and Hill Air Force Base through mutual aid agreements.

To ensure effective staffing, we measure performance. This is done in two main ways. The first is our response time requirements. Every month response times are reviewed to ensure the standards are being met. Second, the fire chief meets with the Medical Control Doctor and EMS Captains to review calls for the quality of care that is being received. We pull up records, evaluate them and make sure our staff is providing the best care possible.

Past years paramedic service has been contracted through Davis County. This year we are pleased to announce that the Fire department will be bringing on paramedic service. Our goal is to have it fully implemented by October 1<sup>st</sup>. This will result in faster response time and will increase the service and safety of the community.

## **Community Services Department**

(formerly Planning & Zoning)

South Weber City Community Services provides for the short and long-range planning of South Weber City. This department in prior years was called Planning and Zoning. This budget includes the creation of the Community Services Director position, the removal of the contracted planner position, and the transition of code enforcement, human resources, emergency management, crossing guard program, and risk management from the Administrative department. The department includes two full time and one part time employee. Zoning services are comprised of both full-time and contracted personnel. The South Weber City Building Official Officer is charged with assisting citizens and business groups with compliance to the City's code, standards, ordinances, and permitting process for the regulation of building construction; and working with developers and contractors through the development process for the successful achievement of their project goals. South Weber City has contracted with Jones & Associates Consulting Engineers for engineering services. This year goal is to streamline human resources by January 2022 and update building permit applications by June of 2022.

## **Streets Department**

The South Weber City Streets Department oversees the maintenance of city streets, public rights of way, and safeguards the streets to be free from hazards. The Streets Department is accountable for maintaining the specific street and roadway certification levels of city employees to ensure that contemporary best practices are implemented and observed for the delivery of safe transportation. The Streets Department provides motorists travelling in South Weber City with safe roadways by means of snow removal and hazard free rights of way. In the FY 2018 – 2019 Budget, the Transportation Utility Fund (TUF) was created for maintaining street infrastructure. Many of the previous costs associated with the Street Department and Class "C" budgets are now in the Transportation Utility Fund (TUF).

To ensure goals are being met we track streets through a program called iWorkQ. This program calculates how long the streets will last and when they will need to be replaced. The program also helps us determine what needs to be maintained in order to push the replacement date back. This helps to decrease cost while keeping streets smooth. Currently the City is working on a few road replacements. These roads are projected to get done by the end of the fiscal year.

Public works oversees the streets department. They have one staff that monitors streets, fills potholes, puts up street signs and organizes snowplows. When needed other staff from other areas assist.

## **Parks Department**

The South Weber City Parks department sustains the operations and maintenance of approximately 50 acres of parks throughout the city. The Parks Department is commissioned to beautifying park land by providing the citizens with quality parks, trails, and green open spaces. It is the goal of the Parks Department to enhance each park facility with amenities that are complimentary to the enjoyment of the community; and to enhance the personal, societal, recreational, and economical benefits that affect citizens and visitors in their pursuit of peaceful, enjoyable leisure. South Weber City continues to invest in safe trails, park play equipment, and improved recreational fields that will provide enriched recreational activities for people of all ages and abilities.

The measurement of success is done through state safety inspections, community feedback, and maintenance checks. To ensure these measurements public works teams up with recreation. Public works staffs for the maintenance with two full employees and two part time employees. Recreation provides the sports and activities as well as the feedback for what needs to updated and changed.

Currently, the City is working with the community to install eight pickleball courts, a BMX track, and a basketball court. The City is projected to get these projects done in November 2021.

## **Glossary**

The Annual Budget contains specialized and technical terminology that is unique to public finance and budgeting. To assist the reader of the Annual Budget document in understanding these terms, a budget glossary has been included in the document.

Accrual Basis: A method of accounting that recognizes revenues when earned and

expenses when incurred, regardless of when cash is received or

paid.

Appropriation: An authorization made by the City Council which permits the City to

incur obligations and to make expenditures of resources.

<u>Audit</u>: A review of financial reports to determine compliance with

applicable laws, regulations, and/or statements performed by an

independent accounting firm.

<u>Balanced Budget</u>: A financial plan of operation in which revenues (sources) equals

expenditures (uses) for the fiscal year. All individual funds must have a balanced budget. Some funds may be balanced by using fund balance as a source of revenue. A balanced budget is required of

municipalities by State Law (municipal code 10-6-110). 317

<u>Baseline Budget</u>: Maintenance level budget adjusted for revenue constraints. Some

service levels are adjusted.

Benefits: Payments made on behalf of employees for such items as

retirement and health insurance. Bonds: Governments issue bonds primarily to finance long term assets, such as buildings, roads,

highways, and utility systems.

Bonds: Governments issue bonds primarily to finance long term assets,

such as buildings, roads, highways, and utility systems.

<u>Budget</u>: Financial plan for a specified period of time (fiscal year) that

matches all planned revenues and expenditures for various

municipal services.

<u>Budget Adjustment</u>: A legal procedure utilized by the City staff and City Council to revise

a budget appropriation.

Budget Calendar: The schedule of key dates or milestones which the City departments

follow in the preparation, adoption, and administration of the

budget.

Budget Message: The opening section of the budget which provides the City Council

and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and the views and recommendations of the Mayor and

Council.

<u>Capital Expenditures</u>: Expenditures to acquire fixed assets or to fund major capital

improvements.

Capital Improvement Program: A plan for capital expenditures to provide long-lasting physical

improvements to be incurred over a fixed period of several future

years.

<u>Capital Improvement Program Budget</u>: A Capital Improvement Program (CIP) Budget is a separate budget

from the operating budget. Items in the CIP are usually construction projects designed to improve the value of government assets.

Examples of capital improvement projects include new roads, sewer lines, buildings, recreational facilities and large-scale remodeling.

<u>Capital Outlay</u>: Expenditures to acquire fixed assets or to fund major capital

improvements.

<u>Certified Tax Rate</u>: The rate of tax to be levied and collected upon the assessed

valuation of all property.

<u>Charges and Services</u>: Expenditures for such items as utility costs and contractual

agreements.

<u>CIP</u>: Abbreviation for Capital Improvement Project.

Contingent: Funds budgeted for unknown or unexpected expenditures during

the budget year.

Current Service Level: See Maintenance Level Budget.

<u>Data Processing</u>: Expenditures for computer services or computer-oriented purchases

such as hardware and software.

<u>Debt Service</u>: The City's obligation to pay the principal and interest of all bonds

and other debt instruments according to a pre-determined payment

schedule.

<u>Department</u>: A major administrative division of the City which indicates overall

management responsibility for an operation or group of related

operations within a functional area.

<u>Depreciation</u>: The cost of a fixed asset that is allocated over several years

depending on the estimated useful life of the asset.

<u>Disbursement</u>: Payment for goods and services in cash or by check.

<u>Encumbrance</u>: The commitment of appropriated funds to purchase an item or

service. To encumber funds means to set aside or commit funds for a

future expenditure.

Enterprise Fund: A governmental accounting fund in which the services provided are

financed and operated similarly to those of a private business. The rate schedules for these services are established to insure that revenues are adequate to meet all necessary expenditures.

<u>Estimated Revenue</u>: The amount of projected revenue to be collected during the fiscal

year. The amount of revenue appropriated is the amount approved

by Council.

<u>Expenditure</u>: This term refers to the outflow of funds paid or to be paid for an

asset obtained or goods and services obtained regardless of when the expense is actually paid. This term applies to all funds. Note: An encumbrance is not an expenditure. An encumbrance reserves funds

to be expended.

<u>Expenses</u>: Charges incurred (whether paid immediately or unpaid) for

operation, maintenance, interest and other charges.

<u>Fiduciary Fund Type</u>: This type of fund is used for activities performed by a governmental

unit that are of a trustee nature. The functions can be either

governmental or proprietary in nature and are accounted for on the

basis of either activity.

<u>Fiscal Year</u>: The twelve-month period designated by the State Code signifying the

beginning and ending period for recording financial transactions.

<u>Fixed Assets</u>: Assets of long-term character which are intended to continue to be

held or used such as land, buildings, machinery, furniture, and other

equipment.

Full-Time Equivalent: One Full-Time Equivalent (FTE) is equal to one employee working

full-time.

Fund: An accounting entity that has a set of self-balancing accounts and

that records all financial transactions for specific activities or

government functions.

<u>Fund Balance</u>: Fund balance is the excess of assets over liabilities.

General Fund: The largest fund within the City, the General Fund accounts for most

of the financial resources of the government. General Fund revenues include property taxes, licenses and permits, local taxes, service charges such as fire and police protection, finance, parks and

recreation, public works, and general administration.

Governmental Fund Type: This type of fund is used to account for activities usually associated

with a typical state or local government's operations. The

measurement of activity is on current financial resources for sources

and uses of funds.

Grant: A contribution by a government or other organization to support a

particular function. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

Interfund Transfers: Amounts transferred from one fund to another.

<u>Intergovernmental Revenue</u>: Revenue received from another government for a specified purpose.

Internal Service Fund: Funds used to account for the financing of goods or services

provided by one department to another department on a cost

reimbursement basis.

<u>Levy</u>: To impose taxes, special assessments, or service charges for the

support of City activities.

<u>Line-Item Budget</u>: A budget that lists each expenditure category (salary, materials,

services, travel, etc.) separately along with the dollar amount

budgeted for each specified category.

Major Fund: The general fund and any other governmental or enterprise fund

whose revenue, expenditures/expenses, assets, or liabilities are at least 10% of the total for all governmental or enterprise funds in the

appropriated budget.

Maintenance Level Budget: Funds budgeted to maintain services and programs at present levels.

Non-Departmental: Expenditure items in the General Fund that are not related to a

specific department. The major items budgeted in this category include general obligation bond payments and transfers to other

funds.

Operating and Maintenance Supplies: Expenditures for goods and services used in day-to-day operations

such as office supplies.

Operating Budget: The portion of the budget that pertains to daily operations that

provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, supplies, utilities,

materials, travel, and fuel.

Operating Expense: Expenditures incurred in day-to-day operations including operating

and maintenance supplies, travel and education, charges and

services, data processing, and other operating expense.

<u>Other:</u> Miscellaneous expenditures not included in other categories of

expense.

Other Operating Expense: Other miscellaneous daily operating expenditures.

<u>Personnel Services</u>: Salary and payroll benefits paid to employees.

Program Budget: A budget that focuses upon the goals and objectives of an agency or

jurisdiction rather than upon its organizational budget units or object

classes of expenditure.

Property Tax: Taxes levied on real and personal property according to the

property's assessed value.

<u>Proprietary Fund Type</u>: This type of fund is used to account for activities that emulate the

private sector. The measurement of activity is on an economic basis which allows the reporting of all assets and liabilities associated with

an activity.

Range: The lower and upper limits of salary for each authorized employment

position ranked according to difficulty of services performed.

Advancement within a range occurs at periodic intervals (usually

annual) based on merit.

Reserve: An account used to indicate that portion of a fund's balance that is

legally restricted for a specific purpose and is, therefore, not

available for general appropriation.

Revenue: Funds that the government receives as income. It includes such

items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues, and

interest income.

<u>Risk Management</u>: An organized attempt to protect a government's assets against

accidental loss in the most economical method.

<u>Salaries</u>: Payments made to employees for services rendered.

<u>Source of Revenue</u>: Revenues are classified according to their source of point of origin.

<u>Step</u>: Within a salary range, the level of pay earned by an employee.

<u>Structurally Balanced Budget</u>: For a budget to be structurally balanced, recurring revenues equal or

exceed recurring expenditures rather than using non-recurring revenues to cover ongoing, recurring expenditures. A structurally

balanced budget supports financial sustainability.

Transfers to Other Funds: To move money to another fund in order to assist that fund in

meeting operational or special project costs.

<u>Travel and Education</u>: Expenditures incurred for equipment and vehicle operating costs

such as repairs and maintenance as well as costs associated with

educational conferences and seminars.

<u>URMMA</u>: Utah Risk Management Mutual Association

<u>Unencumbered Balance</u>: The amount of an appropriation that is neither expended nor

encumbered. It is essentially the amount of money still available for

future purchases.

#### Returned Check and Returned Electronic Fund Transfer Fee:

\$25

These fees include/not limited to non-sufficient fund checks or electronic fund transfers (EFTs), stopped payment checks or canceled accounts where funds are not available.

If an individual's utility payment is returned from the bank on two separate occasions within a 12-month period, the City will be compelled to make this individual comply with the following procedures:

- 1. Discontinue water service until payment has been paid with cash, cashier's check, or money order.
- 2. Required to pay shut-off fee.
- 3. Required to pay all fees associated with returned check or EFT.
- 4. Hereinafter, all utility payments will then need to be paid with cashier's check, money order, or cash. No personal checks or EFTs will be accepted for a one-year period.

## **Agenda Item Introduction**

Council Meeting Date: August 24, 2021

Name: Mark McRae

**Agenda Item:** ARPA's Coronavirus Local Fiscal Recovery Fund Employee Premium Pay

Background: The American Rescue Plan Act (ARPA) allocated money to be distributed by state to cities for Corona Virus relief. South Weber City has received the first tranche of two in the amount of \$463,697.50. The total will be \$927,395. These funds are titled the Coronavirus Local Fiscal Recovery Fund. The United States Treasury department has established the eligible uses of the funds. Some of the eligible expenses are 1) Premium Pay for employees, 2) Water and Sewer infrastructure, and Cybersecurity upgrades. Staff recommends that Premium Pay be the top priority. This is an opportunity for the City Council to recognize the essential work performed by city employees during the COVID-19 pandemic. Unlike the hazardous pay restrictions of the CARES Act., Premium pay can be given retroactively to any employee who performed essential government functions during the pandemic. The recommendation is to pay city employees Premium Pay for the period March 2, 2020 through February 28, 2021. This is one full year, 26 pay periods, and will be for actual hours worked.

The discussion and decision tonight centers on the council's desire to do a one-time recognition of city employees' dedication through the pandemic, and the hourly amount of that recognition. Staff recommendation is between \$3 and \$4 dollars per hour. The maximum allowed under the Act is \$13/hr.

Hourly	Premium	\$927,395.00
Rate	Pay	
\$3.00	\$153,176.79	17%

\$12.00	\$596,489.76	64%
\$13.00	\$646,197.24	70%

**Summary:** Tonight's discussion centers on the city council's use of ARPA funds for Premium Pay, and the hourly rate if approved.

**Budget Amendment:** The budget will need to be amended for any uses of the ARPA funds.

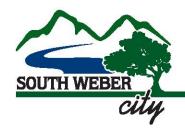

**Procurement Officer Review:** Budgeted amount \$ Bid amount \$

## **Agenda Item Introduction**

**Council Meeting Date:** August 24, 2021

Name: David Larson

Agenda Item: Canyon Meadows Park West Landscape Funding

**Background:** During the May 25, 2021 City Council meeting, the City Council directed the Parks Committee to include sod and sprinklers around the new basketball and pickleball courts as part of the Canyon Meadows Park West project within 2 years.

The City has \$190,000 budgeted this year to upgrade the field at Cherry Farms Park. The project was bid out and only one bid received that was much higher than budgeted. The thought at the time was to rebid the project in the future at a better time of year to hopefully get more and better bids. However, now with priority to install sod & sprinklers at Canyon Meadows, the Committee recommends using a portion of that money for a new ball field at Cherry Farms park to be shifted and used in Canyon Meadows.

The Committee has identified additional items that they feel cascade in importance that the money could also be used for and is looking for a decision from the City Council on whether those projects should be moved up the priority list and funded now.

The exact amounts for each item will be presented during the City Council meeting, as staff is working to get more detailed numbers, but the list of items (in order of Committee preference) is as follows:

- 1- Cherry Farms ball field minor work to get us by until the larger project can be funded
- 2- Canyon Meadows Park West sod & sprinklers
- 3- Canyon Meadows Park West bike track
- 4- Canyon Meadows Park West complete fencing

#### 5- Canyon Meadows Park West trees

The Committee recommends funding items 1 and 2 now and is presenting items 3-5 as options for the full Council's consideration with the following question: should those additional items be elevated in priority over keeping the money for the full Cherry Farms field upgrade?

**Summary:** Approve or deny the Parks Committee's recommendation on how to fund the landscaping for portion of the Canyon Meadows Park West project.

**Budget Amendment:** No amendment will be needed, although the money will be

spent on a different project than originally budgeted for

**Procurement Officer Review:** Budgeted amount \$ Bid amount \$

**Committee Recommendation:** Fund items 1 & 2 and any of the other projects

that the Council feels are priority
