South Weber City Tree Grant Program

It has been brought to my attention that the city council would like to see more trees in town. I think this is a great idea, trees save water, cool the city, and look nice. The city is currently under staffed and lacks the resources to properly take care of a potentially significant increase in man-hours for trees to be planted around the City. One possible solution that would assist the Public Works Department in addressing this concern would be to establish a tree grant program. As part of the program the city could make an arrangement to only pay for a portion part of the expense to purchase the trees, In turn, the land owner would perform the required maintenance. In addition, this program would afford the city discretionary authority to pick the type of trees that are to be planted in their respective locations. An arrangement of this kind would promote positive public relations.

CITY TREE GRANT

South Weber City would like to promote the planting of trees throughout the city. The City would like to partner with the citizens of South Weber to make our community look more beautiful. The South Weber City Tree Grant Program declares that:

1. Residents must fill out an application and have the application approved by the City Forester
2. A home owner in South Weber City may receive one \$50.00 (fifty dollars) reimbursement voucher, per home
3. Trees that are eligible for reimbursement must be on the City's approved selection list (see list below)
4. Trees may be planted in a 6' or wider park strip; or
5. Trees may be planted in a front or side setback that fronts on a city street.
6. All plantings must follow the city code (see below)
7. *Trees may be purchased at any approved city vender see vender list below
8. After the purchase and planting of the tree, the City Forester will visit each residence to verify that the tree has been planted properly and that it is being cared for appropriately

Those interested in participating in the South Weber City Tree Grant Program can:

Simply fill out an application, which can be obtained at the front desk of city hall or online at www.southwebercity.com Once your application has been reviewed by the South Weber City forester a voucher will be issued for the purchase of a specifically approved of tree, which you may redeem at one of the participating nurseries for the dollar amount. The South Weber City forester will visit your home a few weeks later to make ensure the tree has been properly planted and is being cared for. If you have a particular tree species in mind you can request that on your application however, some trees are not always suitable for certain areas. The city is committed to helping people plant the right tree in the right place. The City has an interest to maintain the beauty of our urban tree canopy for many years to come.

Some of the rules and restrictions to the program are as follows:

1. Applicant must be a South Weber City resident
2. The planting site must be at a residential location within city boundaries
3. Recipients agree to accept all responsibilities, liabilities, transportation needs, proper planting and care of the tree. Residents may request 1 to 2 trees on their application, however no more than 2 trees will be approved in a 6 month period, and no more than 4 trees are available in a 2 year period. The program is first come first serve and vouchers are limited. Applications will be reviewed and approved in the order received
4. Once the allocated budget for this project is exhausted the program will end

7.01.030 Obstructions In Streets

Height Limitations: All sidewalks shall be kept clear and unobstructed to a height of seven feet (7'). No vegetation shall be allowed to extend into the street past the curb face or the edge of the pavement where there is no curb to a height less than fourteen feet (14').

Clear View Across Corner Of Property Required: In all zones which require a front yard, no obstruction to view in excess of two feet (2') in height above the level of the curb or roadside, where no such curb exists, shall be permitted on any corner lot within a triangle, formed by the street, property lines and line connecting the between points forty feet (40') from the intersection of the streets and property lines, except for the following:

A reasonable number of trees pruned or maintained in such a way as to provide reasonably unobstructed vision to the driver of automobiles through such area.

Adopted by Ord. 1989 Code § 11-362 on 1/1/1989

Tree lists.

Trees in a 6' or wider park strip.

Trees in a front or side setback 10 or more from the sidewalk.

Vender list.

*if a vender is not on the list they can call city office and be preapproved.
