

# IndustrialLink® (3 1/2" x 5" mesh — semi-privacy)

*IndustrialLink® fence is built using the same materials and specifications as PrivacyLink®, except for the slats. We insert and staple the Industrial Slats into the chain link at our factory so that you don't have to insert them by hand on the job site. They provide about 75 percent privacy (based on wire/mesh used-stretch tension), and they are an excellent choice in fencing for a boundary and security.*

### **Benefits:**

- Factory inserted slats
- Superior privacy
- Cost-efficient solution for most settings
- Less installation time saves labor costs
- Low Maintenance
- Effective wind screen
- Enhances the appearance of the property
- Acts as exceptional sound barrier
- Virtually theft resistant
- Virtually unclimbable

### **Heavy-duty HDPE Slats**

*IndustrialLink® features strong and durable double wall slats "factory inserted" into the wire mesh. Choose from a wide variety of colors and styles. There's something just right for whatever your needs might be.*

### **Galvanized Chain Link Fencing**

We fabricate our chain link mesh using only the highest grade 9 or 10 gauge galvanized wire. Our state-of-the-art manufacturing process ensures a consistent weave and product quality.

### **Vinyl Coated Chain Link Fencing**

We also offer a fused and bonded vinyl coated chain link mesh that is color coordinated to seven of our standard slat colors. And, we guarantee it for years of trouble-free use.

### **ASTM Designations**

Meets ASTM Designations (see chart on the next page)
